PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if ingested through skin. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS
This pesticide is extremely toxic to aquatic organisms, including fish and aquatic invertebrates. Do not contaminate water when cleaning equipment or disposing of equipment washwater or contents. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Applying this product in channels or ditches when rain is not predicted for the next 24 hours will help prevent that water or rain does not blow or wash pesticide off the treatment area. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drip to blooming crops or weeds while bees are actively visiting the area.

PHYSICAL OR CHEMICAL HAZARDS
Flammable. Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE:
It is a violation of federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS:
• Do not contaminate food and feedstuffs.
• Do not apply when food is present.
• Do not allow adults, children, or pets to enter the treated areas until sprays have dried.
• Do not apply directly to sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur, except as directed by the label.
• Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift.
• Do not use in commercial food processing, preparation, storage, or serving areas.
• Remove fish and other live fish from aquariums before spraying, and turn aquarium systems off.
• Do not apply to treated area to the point of run-off.
• Do not make applications during rain.
• All outdoor applications must be limited to spot or crack-and-crevice and wasp and hornet nest treatments only.
• All outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications, only.
• In the home, cover all food/feed processing surfaces and utensils. Cover or remove exposed food/feed.
• For Control of Nest of Wasps, Yellow Jackets and Hornets: The best time to spray the nest is the early morning or early evening when the air temperature is cooler. Most insects are in the nest and little activity is observed around the nest entrance. Spray only if the air is still. Stand at a safe distance from the nest. Do not stand directly under the nest. Hold container upright at arm’s length and point the actuator at the nest. First spray the opening of the nest. I Flea then the rest of the nest until it is saturated. Treated insects may fall out of the nest and die. Any insects returning to the nest after treatment will be killed. Wait 48 hours before removing the nest. Hose off foliage of desirable plants contacted with spray.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool dry area. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL and CONTAINER HANDLING: Do not puncture or incinerate. Nonrefillable container. Do not reuse or refill this container. If Empty: Place in trash or offer for recycling if available. If Partly Filled: Call your local solid waste agency for disposal instructions.
