DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Do not allow children to apply product. To prevent harm to you and your cat read entire label before each use. Follow all directions and precautionary statements carefully. Do not use on rabbits or hairless other than cats. Do not allow your cat to ingest this product. Do not use on kittens under 8 weeks of age. Do not apply to cats weighing less than 1.5 lbs. Do not use on double-dose cats. Use entire contents of tube on each cat. Do not split one tube between two cats. Separate the treated cat from other cats and dogs for 24 hours after treatment has been applied.

SIDE EFFECTS: Monitor your cat after application. Some cats may experience temporary drowsiness when any product is applied. Cats may experience temporary redness at the site of product application such as redness, scratching or other signs of discomfort. If signs of sensitivity occur, bathe your cat with a mild soap and rinse with large amounts of water. If these or other side-effects occur, consult your veterinarian or call 1-877-416-7320. If your cat has an unusual reaction to the initial application, consult a veterinarian before repeating application. This is the most common signs of accidental ingestion are excoriation and scaling at the mouth. If these symptoms occur, immediately feed your cat and continue to monitor your cat for the next 24 hours.

How to open: Remove product tubes from the package. Separate one tube from the others. Hold the tube with nozzle end pointing up and away from the baseline body. Use scissors to cut off the narrow end of the package along the line. How to apply: While holding the cat with one hand, use the other hand to apply the solution. Insert the tube and use the narrow end to part the cat's hair. Apply contents of one tube to the product in a spot between the shoulder blades. Hold the cat for a few seconds to give the solution time to be absorbed into the cat's coat. After finished, wrap the tube in paper and put into the trash. Only one applicator per treatment is needed.

PRECAUTIONS OF APPLICATION

Use monthly for complete control of flea, tick, and chewing lice infestations. This product kills adult fleas for up to six weeks. Apply monthly if your cat is at high risk for flea reinfestation. Apply monthly to control lice and chewing lice. This product remains effective, even after bathing, water immersion, or exposure to sunlight. Allow treated area to dry thoroughly. Do not apply for 4 weeks.
