** SIZE OF ART - 8.5” x 11” **
** SCALE OF ART WHEN PRINTED ON AN 8.5” x 11” SHEET - 100% **
** FONT SIZE OF TEXT ON PRINTED PACKAGING – 6PT FONT OR HIGHER **
** General Information: ** STAY AWAY® BOTANICAL RODENT REPELLENT repels by odor that is offensive to rodents, but not to humans. This product can be used effectively to repel rodents from infested areas for up to 30 days.

** Directions for Use:**

** Indoors:** Use in non-living areas (attics, basements, cellars, storage areas, garages, sheds, pantries, and barns). Place one scent pouch per 8 square feet in areas to be protected (i.e. 4 pouches in a single car garage or 1 pouch in a pantry). Replace when scent has diminished. Length of effectiveness depends on air exchange rates and temperature.

** Enclosed Spaces:** Use in autos, RV’s, airplanes, boats, tractors, trucks, and other enclosed spaces. Place 4 scent pouches per storage unit per season to freshen the average size camper, boat, truck or auto. Replace scent pouches when scent has diminished. The product lasts up to 30 days in cold storage areas. Length of effectiveness depends on air exchange rates and temperature condition of storage areas.

** Notice:** Buyer assumes all responsibility for safety and use not in accordance with directions. This innovative product was invented out of necessity. I was offended by the toxic smell of moth balls and the unpleasant odors we found in our farm implements in the spring, so I came up with a plant-based alternative that would both freshen and protect our storage areas for up to three months. This product is safe when used as directed and offers a kinder way to repel rodents from vacant storage areas. I wish to personally thank you for purchasing this product. In doing so, you support American farmers, less advantaged communities and our precious environment. I welcome your comments and suggestions.

** STORAGE AND DISPOSAL:** Do not contaminate water, food or feed by storage and disposal. 

** STORAGE:** Store in original container in cool, dry place, inaccessible to children and pets. Keep container tightly closed to prevent evaporation.

** DISPOSAL:** Non-refillable container. Do not reuse or refill this container. Promptly dispose of used pouches in the trash so as not to attract ravenous mice. Contents and packaging are biodegradable.

Roofing: This product was treated as set for compliance with this manual. I was affected by the facts of compliance and the unautomated items used for this procedure is not an interactive tool that would both create and print the storage areas. You can use up to these facts. This product is safe when used as directed and offers a barrier against harm to rodents from stored storage areas.

I want to personally thank you for purchasing this product. In doing so, you support American farmers. I hope advanced technology and environment. Thanks for your comments and suggestions.
