Disinfectant Concentrate

Moldex® Disinfectant Concentrate is a phosphate-free, pH neutral formulation designed to provide effective cleaning, deodorizing, and disinfection for households, homes, schools, office buildings, manufacturing facilities, lodging establishments, hotels, retail business, and athletic/recreation facilities where housekeeping is of prime importance in controlling cross-contamination from treated surfaces.

Moldex® Disinfectant Concentrate is a one step neutral disinfectant that is effective against a broad spectrum of bacteria, is virucidal* (including HIV-1, HIV-2, HBV and HCV) and inhibits the growth of mold and mildew and the odors when used as directed.

Moldex® Disinfectant Concentrate, when used as directed, is formulated to address the following hard non-porous inanimate environmental surfaces: floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, vanity tops, shower stalls, bathtubs, and cabinets.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is not for use on critical and semi-critical medical device surfaces.

DISINFECTION - To disinfect inanimate, hard non-porous surfaces add 2 ounces of this product per gallon of water (or equivalent dilution). Apply solution with a mop, cloth, sponge, hand pump trigger sprayer or low pressure coarse sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove excess liquid. For sprayer applications, spray 6-8 inches from surface, rub with brush, sponge or cloth. Do not breathe spray mist. For heavily soiled areas, a pre-cleaning step is required. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mold growth appears.

To Control Mild and Molds on Large, Inflatable, Non-Porous Plastic and Rubber Structures (animal’s promotional items, neons, slides, obstacle course play equipment, exercise equipment, and wrestling mats) Thoroughly clean all surfaces with soap or detergent and rinse with water. Saturate surfaces with a use-solution of 8 ounces of this product per 4 gallons of water (or equivalent dilution) for a period of 10 minutes. Ventilate buildings and other enclosed spaces. Do not use equipment until treatment has been absorbed, set or dried.

VIRUCIDAL ACTIVITY - This product when used on environmental, inanimate, hard, non-porous surfaces exhibits effective virucidal activity against HIV-1, HIV-2, Hepatitis B Virus (HBV), Hepatitis C Virus (HCV), Herpes Simplex Type 1 (HSV-1), Herpes Simplex Type 2 (HSV-2), Human Papilloma Virus (HPV), Human Hepatitis A Virus (HAV), Human Coronavirus, SARS Associated Coronavirus, Rabies Virus, Para-influenza Virus (Mumps), Bovine Viral Diarrhea Virus (BVDV), Pseudorabies, Bovine Rhinotracheitis, Feline Leukemia, Feline Pox, Canine Distemper Virus, Canine adenovirus Type 2 (CAV-2), Parainfluenza-3 Virus, Canine Parainfluenza Virus, Parechovirus, Canine Parainfluenza Virus (PRRSV), Rabies Virus, Canine Adenovirus Type 2 (CAV-2), Canine Parainfluenza Virus, Canine Parainfluenza Virus (PRRSV), and Canine Parainfluenza Virus (PRRSV).

This product when used on environmental, inanimate, hard, non-porous surfaces demonstrates effective disinfection activity against a broad spectrum of bacteria, is virucidal (including HIV-1, HIV-2, HBV and HCV) and inhibits the growth of mold and mildew and the odors when used as directed.

GENERAL CLEANING - Apply this product to soiled area with a mop, cloth sponge, hand pump trigger sprayer or low pressure coarse sprayer. This product can be diluted at 2 ounces per gallon (or equivalent dilution) or applied at full strength. Thoroughly wet soiled surface and scrub as necessary.

DEODORIZATION - To deodorize, apply this product as indicated under the heading DISINFECTION.

MILDENSTAT - To control mold and mildew (Aspergillus niger) and the odors they cause on pre-cleaned, hard, non-porous inanimate surfaces add 2 ounces of this product per gallon of water (or equivalent dilution). Apply solution with a cloth, mop, sponge or hand pump trigger sprayer making sure to wet all surfaces completely. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mold growth appears.

Moldex® Disinfectant Concentrate is formulated to disinfect the following hard non-porous inanimate environmental surfaces:

- Floors
- Walls
- Metal surfaces
- Stainless steel surfaces
- Glazed porcelain
- Glazed ceramic tiles
- Plastic surfaces
- Vanity tops
- Shower stalls
- Bathtubs
- Cabinets

Moldex® Disinfectant Concentrate is fungicidal against the pathogenic fungi: Trichophyton mentagrophytes (Athlete’s Foot fungus) and Candida albicans. Apply solution with a cloth, mop, sponge or hand pump trigger sprayer to hard, non-porous surfaces found in bathrooms, shower stalls, locker rooms, exercise facilities or other clean, hard non-porous surfaces commonly contacted by bare feet. Allow the surface to remain wet for 10 minutes, then remove excess liquid. Diluted product should be applied daily or more frequently with heavy facility use.

*Virucidal activity has been shown for HIV-1, HIV-2, HBV, and HCV. This activity is not equivalent to antiviral treatment activity.

64OZ DISINFECTANT CONCENTRATE
BOTTLE ARTWORK

KILLS HIV-1, HIV-2, HBV, and HCV on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings (hospitals, nursing homes) or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 or Type 2 (HIV-1 or HIV-2) (associated with AIDS), Hepatitis B Virus (HBV), and Hepatitis C Virus (HCV).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HIV-2, HBV, and HCV OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

PERSONAL PROTECTION: When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks, and eye coverings.

CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product.

CONTACT TIME: Allow surface to remain wet for 10 minutes.

DISPOSAL OF INFECTIONS MATERIALS: Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

(NOT for use in California)

WATER AND SMOKE RESTORATION AGAINST ODOR-CAUSING BACTERIA AND FUNGI FOR INSTITUTIONAL, INDUSTRIAL, AND HOSPITAL USE

This product is particularly suitable for use in water damage restoration situations against odor-causing bacteria on the following porous and semi-porous materials: carpets, carpet cushion, sub-floor, drywall, trim, and frame lumber, tankless strip and paneling. Mix 2 ounces of this product per gallon of water (or equivalent dilution) and saturate affected materials with enough use-solution to remain wet for at least 10 minutes. Use proper ventilation.

Sewer backup & river flooding: During mitigation procedures, dilute 2 to 4 ounces of this product per gallon of water (or equivalent dilution) allowing for the diluting effect of absorbed water within saturated materials. Remove gross filth or heavy soil along with non-salvageable materials. Saturate all affected areas with a sprayer using a coarse spray tip, before and after cleaning and extraction.

Carpets, carpet cushions and other porous materials such as sub-flours, drywall, trim and frame lumber, tankless strip and paneling: For water damage from a clean water source, extract excess water. Test hidden areas for colorfastness. Mix 2 to 4 ounces of this product per gallon of water (or equivalent dilution), allowing for the diluting effect of absorbed water within saturated materials. Remove gross filth or heavy soil. Apply directly with a sprayer using a coarse spray tip, to fully saturate all affected materials. Roll, brush or agitation into the materials and allow the materials to remain damp for 10 minutes. Follow with a thorough extraction. Dry rapidly and thoroughly.

Special instructions for cleaning carpet against odor-causing bacteria: This product can be used in industrial and institutional areas: hotels, motels, nursing homes, schools and hospitals. For use on all desirable synthetic fibers, do not use on wool. Use at the rate of 300-500 sq. ft. per gallon.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

DANGER

KEEP OUT OF REACH OF CHILDREN. CORROSIVE. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. May be fatal if inhaled through the skin. Harmful if swallowed. Wear goggles or face shield, rubber gloves, and protective clothing. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.

PESTICIDE STORAGE - Store in original container in a cool (temperature no lower than 50°F or higher than 120°F), dry and locked storage area inaccessible to children.

PESTICIDE DISPOSAL - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticides, spray mixtures, or residue is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL - Non-refillable container. Do not re-use or refill this container. Clean container promptly after emptying. After rinsing container, offer empty metal drums or plastic containers for recycling if available or puncture and dispose of in a sanitary landfill or by incineration.

RINSING INSTRUCTIONS

Triple rinse container promptly after emptying. Triple rinses as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Drain for 10 seconds. Pour rinse into application equipment or a mix tank or store rinse for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two or more times.
