分之重點

(REV.2011.11.08)
Disinfecting Wipes

For use on hard, nonporous nonfood contact surfaces in public areas:

**A thorough wash with potable water after use is required for surfaces in direct contact with food. Food contact surfaces are not cleaned for sanitization.

Critical Care Areas: CCL Emergency Rooms, E.R. (ICU), Neonatal Intensive Care Units (NICU), Operating Rooms, Pediatric Intensive Care Units (PICU) and Surgery.

Hospital, Healthcare, and Critical Care Use Sites: May be used on hard, nonporous surfaces if/ equipment: ambulance equipment surfaces; bed railings, cabinets, carts, chairs, counters, exam tables, stretchers, stools, tables, telephones, toilet seats.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that it is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or if it contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normal sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

The following bacteria passed testing for both 12% 3% disinfectant and 3 minute disinfection with 5% organic soil: Campylobacter jejuni; Klebsiella pneumoniae; Escherichia coli (E. coli) D3173; Listeria monocytogenes; Community Acquired Methicillin Resistant Staphylococcus aureus (MRSA); Methicillin Resistant Staphylococcus aureus (MRSA); Pseudomonas aeruginosa; Salmonella enterica (Salmonella); Staphylococcus aureus (Staph); Streptococcus pneumoniae; The following bacteria passed testing for 3 minute disinfection with 5% organic soil: Acinetobacter baumannii; Multi-Drug Resistant ESBL Production Escherichia coli (E.coli); Vancomycin Resistant Enterococcus fecalis (VREF). The following viruses passed testing at a 3 minute contact time with 5% organic soil: *Adenovirus Influenza Virus HA1 (HAV)*; *Herpes Simplex Virus*; *Influenza A Virus*; Respiratory Syncytial Virus (RSV); Hospital/Medical/Use: *Hepatitis B Virus* (HBV); *Hepatitis C Virus* (HCV); *HIV*; *AIDS Virus*; *Kills Pandemic 2009 H1N1 Influenza A virus*; *Effective against common cold virus caused by Coronavirus and common flu virus caused by Influenza Hong Kong*.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To DISINFECT: Use a wipe to remove heavy soil. Unfold a clean wipe and thoroughly wet surface. Treated surface must remain visibly wet for a full three (3) minutes. Use additional wipe(s) if needed to assure continuous 3 minute wet contact time. Let air dry.

To SANITIZE NONFOOD CONTACT SURFACES: Use a wipe to remove heavy soil. Unfold a clean wipe and thoroughly wet surface. Treated surface must remain visibly wet for full 15 seconds. Use additional wipe(s) if needed to assure continuous 15 second wet contact time. Let air dry.

To CLEAN: Use a wipe to remove soil. Unfold a clean wipe and thoroughly wet surface. Treated surface must remain visibly wet for a full three (3) minutes. Use additional wipe(s) if needed to assure continuous 3 minute wet contact time. A thorough rinse with potable water is required for surfaces in direct contact with food.

"KILLS HIV-1 (AIDS VIRUS), HEPATITIS B VIRUS (HVB) AND HEPATITIS C VIRUS (HVC) ON PRE-CLEANED ENVIRONMENTAL SURFACES/ OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in three (3) minutes at room temperature (68-77°F) or (20-25°C) in healthcare or other settings in which there is an expected likelihood of soiling by minute ocular surfaces/objects with blood or body fluids, and in which the surface/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS), Hepatitis B Virus (HBV) and Hepatitis C Virus (HCV).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HEPATITIS B VIRUS AND HEPATITIS C VIRUS SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS

Personal protection: when using this product, wear disposable protective gloves, protective goggles, face masks, and eye coverings as appropriate when handling HIV-1 (AIDS Virus), HBV or HCV infected blood or body fluids.

Cleaning procedure: All blood and other body fluids must be thoroughly cleaned from surfaces and objects before disinfection by the germicidal cloth. Open, and unfold first germicidal cloth to remove gross fibrin or heavy soil.

Disposal of infectious materials: Dispose of used towelettes in accordance with local regulations for infectious waste disposal.

Contact time: Use second germicidal cloth to thoroughly wet surface.

Allow to remain wet three (3) minutes, let air dry. Although efficacy at a 30 second contact time has been shown to be adequate against HIV-1 (AIDS VIRUS), this time is not sufficient for the other non-HIV organisms listed on this label. Therefore, a 3 minute wet contact time must be used for all listed non-HIV organisms.

PRECAUTIONARY STATEMENTS:

Hazard to humans and domestic animals:

CAUTION: Causes moderate eye irritation. Avoid contact with eyes and clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using toilet.

FIRST AID: In case of eye contact: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. For additional information in case of emergency call 1-888-222-0122. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

In case of ingestion: For adults and children over 12 years of age: Do not induce vomiting. Call a poison control center or doctor for treatment advice. For additional information in case of emergency call 1-888-222-0122. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

In case of breathing problems: In case of breathing problems, call a poison control center or doctor for treatment advice. For additional information in case of emergency call 1-888-222-0122. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage and disposal.

Storage:Store do not store near heat or open flame. When not in use keep cap of lid closed to prevent moisture loss.

Towellite Disposal: Do not use towelettes on trash. Do not flush in toilet.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Triple rinse and offer for recycling. If recycling is not available, put in trash collection.
