Adams™ Plus Flea & Tick Spot On® for Dogs is most effective when used as part of a total flea and tick management program. Use other treatments on dogs and cats, the cat will often groom the dog, allowing oral exposure to your cat. In households with dogs and cats, the cat will often groom the dog, allowing oral exposure to your cat.

FOR SMALL DOGS/PUPPIES WEIGHTING 5-14 LBS use one disposable liquid tube for each application. Each package contains tubes for 3 applications.

Note: The skin is visible. Place the tip of the tube above the skin, not to the hair. When applying, gently press aside dog/puppy’s hair to allow direct application to the skin.

Remember your dog after application. Side effects may include signs of skin irritation such as scratching, scratching, or other signs of discomfort. Sudden signs such as vomiting or diarrhea have been reported. If you notice any other side effects or unexpected signs, contact your veterinarian or call 800-234-2269.

FIRST AID
- If on skin or clothing: Take off contaminated clothing. Rinse skin with large amounts of water, and consult a veterinarian immediately.
- If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- If on hair: Wash hair with mild soap, rinse with water for 15-20 minutes, then continue rinsing eye.
- If on mouth, nose, or ears: Wash skin with soap, rinse with water, and consult a veterinarian immediately.

Keep out of reach of children. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or smoking.
