directly behind the hand. Make sure the spray thoroughly wets ticks. When used on miniature and toy breeds of dogs, towel-dry the animal after ½ hour if not totally dry. Avoid contact with genitalia. Repeat as required but not more often than once every 7 days (1 week).

FOR PUPPIES OVER 6 MONTHS: Wrap the animal in a towel that has been sprayed lightly with this product. Leave eyes, nose, and mouth exposed. Put some spray on the finger and gently rub around eyes, nose, and mouth area. Keep animal wrapped for 5 to 10 minutes. Fleas may then be removed from the coat by picking or combing. For best results, all dogs should be treated with a similar flea control product such as DefenseCare Flea & Tick Spray for Dogs to prevent reinfestation. Do not spray directly on puppies. Avoid contact with genitalia. Repeat as required, but not more often than once every 14 days (2 weeks).

Sensitivities may occur after using any pesticide product on pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage
Keep this product in its tightly closed original container when not in use. Store in a cool, dry (preferably locked) area that is inaccessible to children and animals and food and pet food.

Container Disposal
Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
