Shock Treatment
destroys organic contaminants

ACTIVE INGREDIENTS:
CALCIUM HYPOCHLORITE..........................................................47.6%
OTHER INGREDIENTS.............................................................52.4%
TOTO..........................................................100.0%

Minimum Available Chlorine .... 40%

KEEP OUT OF REACH OF CHILDREN
DANGER

Expiration or improper use may cause fire, explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water. Do not mix this product with a small amount of water. Only add directly to your pool. Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, inhaled, or absorbed through the skin. Read all precautionary statements on label and all first aid statements before use.

FIRST AID:
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor for treatment advice.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice.
IF INHALED: Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Possible mucosal damage may contain a case of gastric mange.

IN CASE OF EMERGENCY CALL: 1-800-504-6611

Net Wt. 1 lb. (16 oz.) (454 g)

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

HOW TO USE: Do not pre-mix this product before adding it to your pool. Only add this product directly to your pool or skimmer. Use entire contents when opened.
Method for dosing directly into pool: Add the recommended dosage of this product during evening hours while the filter pump is running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. If you granulate settle to the bottom of the pool, use brush to disperse.

WATER BALANCE: For best product performance, maintain pool chemistry and crystal clear water. After use, PACE® pool care products to maintain the following water balance:

<table>
<thead>
<tr>
<th>Acceptable Range for Balance</th>
<th>pH</th>
<th>Total Alkalinity</th>
<th>Calcium Hardness</th>
<th>Available Chlorine</th>
</tr>
</thead>
<tbody>
<tr>
<td>____________________________</td>
<td>7.2–7.8</td>
<td>60–120 ppm</td>
<td>Above 200 ppm</td>
<td>1–4 ppm</td>
</tr>
</tbody>
</table>

Follow label directions for each product and allow each product to dissolve and disperse before adding additional products to the pool. Use a reliable test kit that measures all these ranges. Re-entry into treated pools is prohibited above levels of 4 ppm for risk of bodily injury.

OPENING YOUR POOL: For best results, see the “WATER BALANCE” section above before treatment. Adjust and maintain pH in the 7.2 to 7.8 range. Allow the pH adjusters to dissolve and disperse before adding this product to the pool. Follow “POOL SHOCK TREATMENT” directions on this package. Allow 30 minutes for product to disperse. Test free available chlorine residual with a pool test kit. 4. Repeat dosage, as needed, until the free available chlorine residual is 1–4 ppm.

POOL SHOCK TREATMENT: Add the recommended dosage of this product while the filter pump is running. Adjust and maintain pH to 7.2 to 7.8 with PACE® pH Plus or pH Minus. Follow label directions for each product and allow each product to dissolve and disperse before adding this product to the pool. When adding this product to your pool, broadcast this product evenly over a wide area of the deepest part of the pool.

DOSAGE RATE:
SHOCK TREATMENT/SUPER CHLORINATION: For best results, see “WATER BALANCE” and “HOW TO USE” sections above before treatment. Every 7 days, or as necessary to prevent pool problems. Shock/ Super chlorinate the pool by adding 16 to 32 ounces (one to two kops) per 1,500 gallons of water to yield 5 to 10 ppm available chlorine by weight. Re-entry into treated pools is prohibited above levels of 4 ppm for risk of bodily injury.

PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, or absorbed through skin.
- Open in a well ventilated area. Avoid breathing dust and fumes.
- Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves. For additional protection of skin, wear long sleeves and long pants.
- Wash hands after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove contaminated clothing and wash clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS
DANGER: If product is exposed to small amounts of water, it can react violently to produce heat and toxic gas and spatter. Do not add water to this product. Add only into water. Do not mix this product with a small amount of water. Only add directly to your pool. Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, inhaled, or absorbed through the skin. Read all precautionary statements on label and all first aid statements before use.
