Chlorinating Granules
Concentrated granular sanitizer
Good for all pool surfaces

ACTIVE INGREDIENT:
CALCIUM HYPOCHLORITE..........................58.44%
OTHER INGREDIENTS..................................41.56%
TOTAL..................................................100.00%
Minimum Available Chlorine...5.49%

KEEP OUT OF REACH OF CHILDREN
DANGER

Contamination or improper use may cause intense fire, explosion, or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and splatters. Do not mix this product with a small amount of water. Only add directly to your pool. Do not add water to this product. Add only into water. Highly corrosive. Causes skin and eye damage. May be fatal if swallowed.

Read all Precautionary statements on back panel before use.

Net Wt. 50 lbs (22.6 kg)

FIRST AID:
If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
Have the product container or label with you when calling a poison control center or doctor or going for treatment.

NOTE TO PHYSICIAN: Possible mucosal damage may contaminate the use of gastric lavage.
IN CASE OF EMERGENCY CALL: 1-800-994-0991
DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

WHY YOU SHOULD USE THIS PRODUCT: This is an effective, multi-purpose sanitizer product that sanitizes, clarifies, and helps prevent algae. It is convenient, easy to use, and won't over-stabilize your pool.

WATER BALANCE: To provide optimum product performance, swimmer comfort and crystal clear water always maintain pH from 7.2 to 7.6, total alkalinity from 80 to 120 parts per million (ppm), and calcium hardness above 200 ppm. Test frequently using a Pace® test kit or test strips that measures all these ranges.

Make any necessary adjustments promptly with the appropriate Pace® pool care products. Reentry into treated pools is prohibited with chlorine levels above 4 ppm for risk of bodily injury.

HOW TO USE: Do not pre-mix this product before adding it to your pool. Only add this product directly to your pool.

Use only a clean, dry lid to measure this product. Do not use the lid for any other purpose. Add the recommended dosage of this product during the evening hours while the filter pump is running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. If any granules settle to the bottom of the pool, use brush to disperse.

ROUTINE CHLORINATION: For best results, see “WATER BALANCE” section before treatment. Throughout the pool season, adjust and maintain pH at 7.2–7.6. Check available chlorine with reliable test strips. Allow the pH adjusters to dissolve and disperse before adding this product to the pool.

Add 4.0 – 10.0 ounces of this product per 10,000 gallons of pool water daily or as often as needed to maintain the free available chlorine residual at 4 ppm. Follow “HOW TO USE” directions on this package.

Dosage for Pools: Follow the following dosage recommendations based upon pool size.

<table>
<thead>
<tr>
<th>Desired Chlorine Level (ppm)</th>
<th>5,000 Gallons</th>
<th>7,500 Gallons</th>
<th>10,000 Gallons</th>

Exposure to heat can cause this product to rapidly decompose, leading to intense fire, explosion, and the release of toxic gases.

- Store in a cool, dry, well-ventilated area.
- Strong oxidizing agent. This product can increase fire intensity. Keep away from heat and from flame and burning material (like a lighted cigarette).
- ENVIRONMENTAL HAZARD: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans or public waters unless in accordance with the requirements of the National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE & DISPOSAL:
Do not contaminate food or feed by storage or disposal or cleaning of equipment. Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonreturnable container. Do not use or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE EMERGENCY HANDLING.

EMERGENCY HANDLING: In case of contamination or decomposition - Do not reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.
