Pool Breeze® Pool Care System Cloudy to Clear I

CONTENTS:
2.3 lb  of Calcium Hypochlorite

DIRECTIONS FOR USE:
This product is a concentrated chlorinating agent. It is a dry, free-flowing form. It kills bacteria, controls algae and destroys organic contaminants in pools. When added to water, this product provides a highly concentrated source of available chlorine to your pool water. See the chart for recommended dosage of this product during evening hours. Use the following method for dosing directly into the pool:

METHOD FOR DOSING DIRECTLY INTO POOL:

1. At the start of the season, or if a severe algae bloom has been used with any other product.
2. If the pool has not settled out or is not blue in color, recommended dosage of this product during evening hours. Use the following method for dosing directly into the pool:

METHOD FOR DOSING DIRECTLY INTO POOL:

1. At the start of the season, or if a severe algae bloom
2. If the pool has not settled out or is not blue in color,

METHOD FOR DOSING DIRECTLY INTO POOL:

1. At the start of the season, or if a severe algae bloom
2. If the pool has not settled out or is not blue in color,

METHOD FOR DOSING DIRECTLY INTO POOL:

1. At the start of the season, or if a severe algae bloom
2. If the pool has not settled out or is not blue in color,

METHOD FOR DOSING DIRECTLY INTO POOL:

1. At the start of the season, or if a severe algae bloom
2. If the pool has not settled out or is not blue in color,
