UNION MFG. PROPERTIES

When this product is used as directed, it will kill Chlorella pyrenoidosa (green algae). Fennellia cirrosa (green algae), Pseudomonas aeruginosa (green algae) and other visible swimming pool algae.

DIRECTIONS FOR USE

1. To prevent algae growth from becoming apparent in the pool, add the initial dose to the pool water according to the instructions below. The initial dose should be added once every 48 hours for the first 3 to 6 weeks. For the first 3 to 6 weeks, maintain the pH below 7.5. After 4 weeks, maintain the pH at 7.2 to 7.6. For the first 3 to 6 weeks, the initial dose should be added within 24 hours after the algae are removed from the pool. After 4 weeks, the initial dose should be added at least once every 7 to 10 days. Add hot water to the pool water at a rate of 1 gallon per 6000 gallons of water. To determine pool capacity in U.S. gallons:

RECTANGULAR POOLS: Multiply length x width x depth (average depth is 3.5) = Pool Gallonage

OVAL POOLS: Multiply length x width x average depth = Pool Gallonage

ROUND POOLS: Multiply diameter x diameter x average depth = Pool Gallonage

Calculate dimensions in feet.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Keep Out Of Reach Of Children. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if swallowed. Harmful if inhaled or absorbed through the skin. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing, and rubber gloves when handling. Wash thoroughly with soap and water after handling, and before eating, drinking, or using tobacco. Remove contaminated clothing and wash cloth before reusing.

FIRST AID:

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip glass of water if unable to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash cloth before reusing. IF INHALED: Remove person to fresh air. For further information, contact a physician or a Poison Control Center.

NOT TO PHYSICIAN: If necessary, consult a physician for further information. WHEN USING THIS PRODUCT:

SOIL UPLIFTMENT: This product is toxic to fish. STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage or disposal. Store product dry in tightly closed container when not in use. Store in a cool, dry, ventilated area away from heat and open flames. NONREFILLABLE CONTAINER: IF EMPTY: Do not refill. IF FULL: Discharge into a storm drain. IF FULL: Call your local public waste agency or 1-800-CLEANUP for disposal information. Never place unused product down any indoor or outdoor drain.
