**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** Store in original container in a cool, dry place. Do not contaminate with pesticides or fertilizer.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container. Empty container by tapping side to apply contents as directed in the Directions for Use. Then offer for recycling if available or puncture and dispose of in sanitary landfill or by incineration, or if allowed by state and local authorities by burning. If burned, stay out of smoke.

**Calf Solutions**

**elim-A-fly.**

**Daily Add-Pack for Calves Containing Diflubenzuron, Insect Growth Regulator, for Continuous Feeding During Fly Season.**

For use with whole milk or milk replacer

**ADD-PACK WITH Clarify**

- Breaks the fly life cycle
- Stops the development of horn fly, face fly, house fly and stable fly larvae in manure from treated calves
- Use as part of an integrated fly control program

**Active Ingredient:**

- Diflubenzuron (CAS Reg. 53367-98-5) ........... 0.16%
- Other ingredients ........................................... 99.84%
- Total ......................................................... 100.00%

- Contains 426.4 milligrams of diflubenzuron per pound

**Caution:** Store in original container, in a cool, dry place. Keep out of reach of children. See back panel for additional precautionary statements.

**Warranty and Limitation of Damages**

Seller warrants that this material conforms to its chemical description and is reasonably fit for the purposes stated on the label, when used in accordance with directions under normal conditions of use, and Buyer assumes the risk of any use contrary to such directions. To the extent consistent with applicable law, Seller makes no other express or implied warranty of fitness or of Merchantability, and no agent of Seller is authorized to do so except in writing and with specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which claim is made.

PRECAUTIONARY STATEMENT
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing.

PERSONAL PROTECTIVE EQUIPMENT
Wear long-sleeved shirt and long pants, shoes plus socks and chemical resistant gloves (such as or made out of any waterproof material). Selection Category A). Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such interactions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

FIRST AID
If on skin or clothing:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-222-1222 for emergency medical treatment information.

USER SAFETY RECOMMENDATIONS
Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside, then wash thoroughly and put on clean clothing. Users should remove clothing/PPE immediately after handling this product. Wash outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to aquatic invertebrates. Do not contaminate water when disposing of equipment, washwater or rinsate.

USE INFORMATION
This product is toxic to aquatic invertebrates. Do not contaminate water when disposing of equipment, washwater or rinsate.

Use elim-A-fly, as part of an integrated fly control program aimed at reducing fly populations in the calf’s environment. Consult your veterinarian or retailer for program recommendations. In order to achieve optimum fly control, use elim-A-fly in conjunction with other premise and on animal products, as well as good management and sanitation practices.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

elim-A-fly contains diflubenzuron, an insect growth regulator which prevents the development of house flies, stable flies, horn flies and face flies in the manure of treated calves, but is not effective against existing adult flies. Start summer and into the fall until cold weather restricts fly activity. In some cases, supplemental fly control measures may be needed in and around pastures, barns and calf hutching to control adult house and stable flies.

The dosage of elim-A-fly is proportional to the animal’s body weight. Each animal must receive a dose of 0.1 oz of elim-A-fly, mixed by either of the following two methods.

Restriction: Feed calves between the weight of 60-200 pounds not to exceed 0.1 mg/kg per day.

MIXING FOR INDIVIDUAL CALVES
Prepare the whole milk or reconstituted milk replacer for each individual calf. Add the appropriate amount shown below based on the calf’s weight, to achieve 0.1 mg/kg.

<table>
<thead>
<tr>
<th>Amount (teaspoon)</th>
<th>Amount per lb body weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>1/2 tsp per 60 lb body weight</td>
<td>1 tsp per 120 lb body weight</td>
</tr>
</tbody>
</table>

Mix thoroughly and feed the entire portion immediately. Repeat daily.

MIXING FOR MULTIPLE CALVES
Thoroughly mix the required amount of elim-A-fly, as shown below, into the total amount of whole milk or reconstituted milk replacer needed for the number of calves to be fed, using level measuring cups, teaspoons (tsps). Prepare fresh daily to provide the labeled daily intake of 0.1 mg/kg. Feed each calf an equal portion of the total amount of treated milk.

</tbody>
</table>

IMPORTANT
Stir or mix continuously. Feed immediately in containers for individual animals only. DO NOT use bulk feeding of some animals due to settling out of the active ingredient.
