metal is not present).

Sweep or blow (do not wash) all fertilizer material from surfaces immediately after application. Excess fertilizer can cause permanent stains. Do not apply to concrete, masonry, wall siding or stucco surfaces unless it is applied by accident brush or sweep off immediately. Keep out of pools.

Severe burns to the skin or eyes. Immediate medical assistance is necessary. Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Wash thoroughly with soap and water. Remove contaminated clothing or gloves. Refer to General Information.

ENVIRONMENTAL HAZARDS

For terrestrial use only. Do not use on or around trees, shrubs, or other vegetation to which this product is not to be applied. Do not use on water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters or rinsates.

GENERAL INFORMATION

Use any time of the year (even when moss is not present).

Sweep or blow (do not wash) all fertilizer material from surfaces immediately after application. Excess fertilizer can cause permanent stains. Do not apply to concrete, masonry, wall siding or stucco surfaces unless it is applied by accident brush or sweep off immediately. Keep out of pools.

NOTE: All products containing soluble iron will stain masonry and clothing. Sweep or blow off immediately. Do not wash off with water. Wash spreading equipment thoroughly after use.

Children and pets may walk on a treated lawn after the dust settles from the application. To save extra precautions, avoid contact with treated lawn until the following day.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with the label.

1. Raise lawn slightly to remove leaves, dead grass and other debris.
2. Mow lawn to exposed moss and to allow fertilizer to penetrate the turf canopy.
3. Apply uniformly at the recommended rate using a lawn spreader.
4. Water thoroughly immediately after application to wash fertilizer particles off grass and down into the soil.
5. Sweep or blow off sidewalks, driveways and patios surfaces and surfaces not suitable for use.

HOW TO APPLY: Apply one pass evenly with a properly calibrated drop type or rotary spreader. A two-pass application, crossing the area at right angles to the first application is one application. Always apply with fertilizer spreader. Do not apply by hand.
