FIRST AID

If swallowed:
• Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• DO NOT induce vomiting unless told to do so by the poison control center or doctor.
• DO NOT give anything to an unconscious person.

If in eyes:
• Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
• Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

If on skin or clothing:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15 to 20 minutes.
• Call a poison control center or doctor for treatment advice.

If inhaled:
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
• Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

FOR A MEDICAL EMERGENCY INVOLVING THIS PRODUCT CALL:
1-800-944-8505

USER SAFETY REQUIREMENTS
Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Users should:
• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

PHYSICAL AND CHEMICAL HAZARDS
DO NOT place product near or allow product to come into contact with strong oxidizing substances (such as potassium permanganate).

ENVIRONMENTAL HAZARDS
This pesticide is highly toxic to birds and aquatic invertebrates. This pesticide is toxic to fish. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intermittent areas below the main high water mark. Do not contaminate water when disposing of equipment washwaters. Exposed treated seeds may be hazardous to birds. Cover or incorporate spilled treated seeds.

Microbial decay is highly toxic to bees. Ensure that planting equipment is functioning properly in accordance with manufacturer specifications to minimize seed coat adhesion during planting to reduce dust which can drift to blooming crops or weeds.

Groundwater Advisory: Metolachlor is known to leach through soil into groundwater under certain conditions as a result of agricultural use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DO NOT apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS
Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 190. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance.
**Agricultural Use Requirements cont’d.**

It also contains specific instructions and exceptions pertaining to the statement on this label about personal protective equipment (PPE) and restricted-entry intervals. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard. DO NOT enter or allow workers into treated areas during the restricted-entry interval (REI) of 24 hours.

**Exception:** If the seed is treated with the product and the treated seed is sold

- Uncoated or seed-coated, the Worker Protection Standard, under certain circumstances, allows workers to enter the treated area if there will be no contact with anything that has been treated. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water is:
  - **Conicals**
  - Chemical-resistant gloves made of barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, polyvinylchloride (PVC) or neoprene rubber.
  - **Shoes plus socks.**

**ROTATIONAL CROPS**

Treated areas may be replanted with any crop specified on an imidacloprid label, or any crop for which a tolerance exists for the active ingredient, as soon as practical following the last application. The following plant-back intervals must be observed for listed crops.

**Rotational Plant-Back Intervals**

**Immediate Plant-Back**

- **Artichoke**
  - Groundnut
  - Rye
  - *Premixes*

- **Barley**
  - Lely peanuts
  - Sunflower

- **Borage**
  - Vegetable
  - Sorghum

- **Brassica (crops) laxly**
  - Lely vegetables
  - Soybean

- **Bell vegetables**
  - (successor or died)
  - Sugarbeet

- **Canola**
  - Including Soybean
  - Sunflower

- **Chili**
  - Millet
  - Tomatillo

- **Corn, Rye**
  - Mustard seed
  - Tobacco

- **Corn, Sweet**
  - Oats
  - Triticale

- **Cotton**
  - Oats
  - Triticale

- **Cucumber**
  - Peppers
  - **Vegetables**

- **Cucumis**
  - Pepper
  - **Vegetables**

- **Cucurbita**
  - Peppers
  - **Vegetables**

- **Eggplant**
  - Peppers
  - **Vegetables**

- **Flax**
  - Peppers
  - **Vegetables**

**30-Day Plant-Back**

- **Cereals, including**
  - **Rice**

* Cover crops for soil building or erosion control may be planted any time, but do not graze or harvest for food or feed.

* For all other crops not listed on an imidacloprid label, or for crops for which no tolerance for the active ingredient has been established, a 30-day plant-back interval should be observed.

**USE RESTRICTIONS**

- **DO NOT** use as a preemergence treatment.
- **DO NOT** use treated seed for food, feed, or forage purposes.
- **Store treated seed away from feeds and livestock.**
- **DO NOT** allow children, pets, or livestock to have access to treated seed.
- The maximum application rate for imidacloprid (including seed treatments, foliar applications, soil applications) is 0.5 pound per acre per year.
- **DO NOT** apply more than 0.5 pound active ingredient imidacloprid per acre per year.

**SEED TREATMENT**

This product is a combination of imidacloprid insecticide and a mixture of the fungicides Metallak, Tecol bromide, and Fluazicarb. When used on listed crops, the fungicide mixture in this product provides more consistent control when disease pressure is high. This product aids in the control or suppression of the following insects, seed, seedling, and soilborne diseases of barley and wheat:

**Crop**

- **Barley**
  - *Insect Control:*
    - Early season protection of seedling against injury by Apioles (including Bird cherry-eat, English grain, Greenbug, and Russian wheat aphid) and Wireworms.
  - *Disease Control:*
    - Seed decay caused by Aspergillus, Penicillium, and other species.
    - Early season disease control of Pythium damping-off and crown smut, Loose smut, Early spring injury (suppression), early season. Phytophthora root rot, early season Common root rot, early season Fusarium root rot, early season suppression of Powdery mildew and early season suppression of Barley leaf blight.

- **Wheat**
  - *Insect Control:*
    - Early season protection of seedling against injury by Apioles (including Bird cherry-eat, English grain, Greenbug, and Russian wheat aphid), Wireworms and Hessian fly.
  - *Disease Control:*
    - Seed decay caused by Aspergillus, Penicillium, and other species.
    - Early season disease control of Pythium damping-off, Shaking smut, Pink rust. Loose smut, early season Septoria disease complex, early season Rhizoctonia root rot, early season Common root rot, early season Fusarium root rot, early season suppression of Powdery mildew and early season suppression of Wheat leaf blight.

**Application Directions:**

Apply prior to planting as a seed treatment. This product is to be used in liquid or slurry treats only. Mix thoroughly before use or use entire container at one time. Ensure thorough coverage. All tank mixes should be
pre-tested to determine physical compatibility between formulations. Follow the most restrictive precautions and limitations on the labeling of all products used in mixtures.

Pesticides: DO NOT graze or feed livestock on treated areas for 45 days after planting.

SEED BAG LABELING REQUIREMENTS

Seed commercially treated with this product must be labeled in accordance with all applicable requirements of the Federal Seed Act. The user of this product is responsible for ensuring that the seed bag meets all requirements under the Federal Seed Act.

THE FEDERAL SEED ACT REQUIRES THAT BAGS CONTAINING TREATED SEEDS BE LABELLED WITH THE FOLLOWING STATEMENTS:

- The seed has been treated with SYNTH-Shield® Footbath® VIROCK™ (imidacloprid, methavon, tebufenozide, fludioxonil).

- Do not use for feed, food, or oil purposes.

THE ENVIRONMENTAL PROTECTION AGENCY REQUIRES THE FOLLOWING STATEMENTS ON BAGS CONTAINING SEEDS TREATED WITH SYNTH-Shield® Footbath® VIROCK™ (imidacloprid, methavon, tebufenozide, fludioxonil):

- Pollinator Precaution: Imidacloprid is highly toxic to bees. Ensure that planting equipment is functioning properly in accordance with manufacturer specifications to minimize seed coat alarcon during planting to reduce dust which can drift to blooming crops or weeds.

- Groundwater Advisory: Methavon is known to leach through soil into groundwater under certain conditions as a result of agricultural use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

- Store away from foods and foodstuffs.

- Wear long-sleeved shirt, long pants and chemical resistant gloves when handling treated seed.

- Treated seed must be planted into the soil at a depth greater than 1 inch.

- Exposure treated seed may be hazardous to birds. Cover or incorporate spilled treated seeds. Excess or leftover seed may be double-sewn around the headland or buried away from bodies of water in accordance with local requirements.

- Dispose of seed packaging in accordance with local requirements.

- Do not graze or feed livestock on treated areas for 45 days after planting.

- Do not contaminate water bodies when disposing of planting equipment wash water.

- Do not allow children, pets, or livestock to have access to treated seed.

- In the event of a crop failure or harvest of a crop grown from SYN-Shield® Footbath® VIROCK® treated seed, the field may be planted immediately to alfalfa, barley, bermuda, Brassica (only leafy vegetables), bulb vegetables, cotton, clover, corn (field or sweet), cotton, cranberry, crape, cacti, eggplant, flax, groundnut, leafy vegetable, licking vegetables (sweetcorn or direct including soybean), millet, mustard seed, oats, peanuts, peas, peanuts, potato, rapeseed, rye, sunflowers, corn, sugarbeets, sunflower, tomatoes, tomatoes, triticale, root and tuber vegetables, watermelon, and wheat. For certain crops including broccoli and rice, the minimum plant-back interval is 30 days from the date SYN-Shield® Footbath® VIROCK® treated seed was planted. Crops grown for soil building or erosion control may be planted at any time, but do not graze or harvest for food or feed. For all other crops not listed on an imidacloprid label, or for crops for which no imidacloprid tolerance for the active ingredient has been established, a 12-month plant-back interval must be observed.

- The maximum application rate (including seed treatment, foliage application, and soil application) per acre per year for imidacloprid is 0.5 pound.

Storage and Disposal

DO NOT contaminate water, food or feed by storage or disposal. PESTICIDE STORAGE: Store in a cool place. DO NOT store in direct sunlight. Protect from freezing temperatures.

PESTICIDE DISPOSAL: Washes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING:

A. Nonrefillable container. Do not reuse this container to hold materials other than pesticides or dilute pesticides (rinse). After emptying and cleaning, it may be allowed to temporarily hold rinseate or other pesticide-related materials in the container. Contact your state regulatory agency to determine allowable practices in your state. Once cleaned, some agricultural pesticide containers can be taken to a container collection site or picked up for recycling. To find the nearest site, contact your chemical dealer or manufacturer, or contact The Agricultural Container Recycling Council (ACRC) at www.acrcycle.org. If not recycled, then puncture and dispose of in a sanitary landfill, or incineration, if allowed by state and local authorities, by burning, or burying, out of smoke, any of these.

B. Triple rinses or rinse rater container (or equivalent) must be used immediately after emptying.

C. For packages up to 6 gallons: Triple rinses as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the filter begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinseate into application equipment or a mix tank or store rinseate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Pressure rinse as follows: Empty the remaining contents into application equipment or a mix tank and continue to drain for 10 seconds after the filter begins to drip. Hold container upside down over application equipment or mix tank or collect rinsate for later use or disposal. Insert pressure rinsate nozzle in the side of the container and rinse at about 40 PSI for at least 30 seconds. Drain for 10 seconds after the flow begins to drip.

D. For packages greater than 6 gallons: Triple rinses as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Trip container on its side.
Storage & Disposal:

and roll it back and forth, ensuring at least one complete inversion, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the residue into the application equipment or a mix tank or store residue for later use or disposal. Repeat the procedure at least two more times. Pressure rinse as follows: Empty the remaining contents into the application equipment or mix tank and continue to drain for 10 seconds after the flow begins to drip. Roll the container upside down over the application equipment or mix tank or collect rinse water in a container. Rinse at a rate of about 40 PSI for at least 30 seconds. Drain for 10 seconds after the flow begins to drip.

D. For refillable containers: Refill this container with pesticide only. Do not reuse this container for any other purpose. Clean the container before final disposal. The disposal responsibility of the container. Clean before refilling is the responsibility of the refilling station. To clean the container before final disposal, empty the remaining contents from this container into the application equipment or mix tank. Fill the container about 18 percent full with water. Agitate vigorously or immerse water with the pump for 2 minutes. Pour or pump rinse into the application equipment or rinse collection system. Repeat this rinsing procedure two more times. For help with any spill, leak, fire or exposure involving this material, call 1-800-424-9300.

CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY

BEFORE BUYING OR USING THIS PRODUCT, read the entire Directions for Use and the following Conditions of Sale and Limitation of Warranty and Liability. By buying or using this product, the buyer or user accepts the following Conditions of Sale and Limitation of Warranty and Liability, which no employee or agent of LOVELAND PRODUCTS, INC. or the seller is authorized to vary in any way.

Follow the Directions for Use of this product carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Crop or other plant injury, ineffectiveness, or other unintended consequences may result from such risks as weather or crop conditions, misuse with other chemicals not specifically identified in this product's label, or use of this product contrary to the label instructions, all of which are beyond the control of LOVELAND PRODUCTS, INC. and the seller. The buyer or user of this product assumes all such inherent risks.

Subject to the foregoing inherent risks, LOVELAND PRODUCTS, INC. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use when the product is used in strict accordance with such Directions for Use under normal conditions of use. EXCEPT AS WARRANTED IN THIS LABEL, AND TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THIS PRODUCT IS SOLD "AS IS" AND LOVELAND PRODUCTS, INC. MAKES NO OTHER WARRANTY, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR SUITABILITY OF THIS PRODUCT FOR ANY PARTICULAR TRADE USAGE.

IN THE UNLIKELY EVENT THAT A BUYER OR USER BELIEVES THAT LOVELAND PRODUCTS, INC. HAS BREACHED A WARRANTY CONTAINED IN THIS LABEL AND TO THE EXTENT REQUIRED BY APPLICABLE LAW, BUYER OR USER MUST SEND WRITTEN NOTICE OF ITS CLAIM TO THE FOLLOWING ADDRESS: LOVELAND PRODUCTS, INC., ATTENTION: LAW DEPARTMENT, P.O. BOX 1286, GREELEY, CO 80632-1286.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE BUYER'S OR USER'S EXCLUSIVE REMEDY FOR ANY INJURY, LOSS, OR DAMAGE RESULTING FROM THE HANDLING OR USE OF THIS PRODUCT, INCLUDING BUT NOT LIMITED TO CLAIMS OF BREACH OF WARRANTY OR CONTRACT, NEGLIGENCE, STRICT LIABILITY, OR OTHER TORTS, SHALL BE LIMITED TO ONE OF THE FOLLOWING, AT THE ELECTION OF LOVELAND PRODUCTS, INC. OR THE SELLER: (I) DIRECT DAMAGES NOT EXCEEDING THE PURCHASE PRICE OF THE PRODUCT OR REPLACEMENT OF THE PRODUCT, TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, LOVELAND PRODUCTS, INC. AND THE SELLER SHALL NOT BE LIABLE TO THE BUYER OR USER OF THIS PRODUCT FOR ANY CONSEQUENTIAL, SPECIAL, OR INDIRECT DAMAGES, OR DAMAGES IN THE NATURE OF A PENALTY.
