FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately and plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. YOU MAY ALSO CONTACT 1-800-424-XCARE FOR EMERGENCY MEDICAL TREATMENT INFORMATION.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER
CORROSIVE, CAUSES INVISIBLE EYE DAMAGE AND SKIN BURNING. EYE CONTACT MAY CAUSE LOSS OF VISION. HARMFUL IF INHALED, IRRITATING TO NOSE AND THROAT. HARMFUL IF ABSORBED THROUGH SKIN OR SWALLOWED. USERS MUST WEAR CHEMICAL-RESISTANT GLOVES WHILE USING THE PRODUCT. AVOID BREATHTAKING OR SWALLOWING. AVOID CONTACT WITH EYES AND SKIN.

KEEP OUT OF REACH OF CHILDREN
DANGER
CORROSIVE AND STRONG OXIDIZER
see side panel for additional precautionary statements and first aid

net contents 1.5 pounds (0.68 kg)

brominating tablets

DIRECTIONS FOR USE:
A solution of federal law to use the product in a manner inconsistent with its labeling. Read the entire label and use strictly in accordance with precautionary statements and directions. Keep pH between 7.2 and 7.6 and never allow it to fall below 7.0. The treatment necessary for your pool or spa will change considerably depending upon those factors that burden the disinfection system. Some of the factors that will vary the required treatment are: water temperature, bather load, exposure to windblown debris, thunder, rain storms, and length of filtration cycle. Users must wear chemical-resistant gloves while placing the tablet in the spa.

SPAS: Before using this product in your spa or hot tub, you will need to add 1/2 oz. of sodium bromide for each 100 gallons of water. The same treatment must be followed each time you drain and refill your spa or hot tub with fresh water. Introduce 3 tablets per 500 gallons of spa water with the use of a floating tab feeder or automatic dispenser installed on the spa equipment. Adjust tab feeder or dispenser to obtain an active bromine residual of at least 0.5 ppm. Maintain spa by adding 3 tablets per 100 gallons every 5-7 days or as needed to maintain an active bromine residual of 2 ppm at all times. Spa water has a tendency to foam and cloud; this is directly proportional to the amount of spa use. Cloudiness is due to the accumulation of body oils, fats, oils and contaminants too small for the filtration equipment to remove, and is linked to rapid escalation of total dissolved solids in the water. To a great extent, defoamers, clarifiers, as well as shock treatments, demineralizers, or sequestering agents can be used to clear the water. When water clarification cannot be achieved, drain, clean, and refill the spa.

STORAGE AND DISPOSAL:
Do not contaminate water, food or feed by storage or disposal. PESTICIDE STORAGE: Keep this product dry in tightly closed, original container when not in use. Store in dark, cool, below 85°F (30°C), dry, well-ventilated area. Keep separate from food, pet food, and feeds. Do not store product away from energy sources, combustible organic materials, oxidizers, strong bases, and moisture. PESTICIDE DISPOSAL: Pesticide waste is acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinse water, may result in contact with a hazardous waste representative at the nearest EPA Regional Office for guidance. CONTAINER HANDLING: Nonrefillable container. Do not use or refill this container. Offer for recycling, if available, or puncture and dispose of in a sanitary landfill.

SPILLS: When handling or dealing with spills, use gloves with side shields, or loose protective clothing, including chemical-resistant gloves and boots; use a dust respirator if dusting occurs. Sweep up dry spills and dispose of as described for pesticide disposal. If container contents are contaminated or decomposing, do not reveal container isolate sealed container in the open or in a well-ventilated area; flood with large volumes of water if necessary.

IN CASE OF FIRE: Do not use ammonium phosphate extinguisher near water and Brominating Tabs. Hazardous reactions may occur.

WARRANTY
Seller warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with label directions under normal conditions of use, but to the extent consistent with applicable law, neither this warranty nor any other warranty, expressed or implied, extends to the use of this product contrary to label instructions; or under abnormal conditions, or under conditions of use not reasonably foreseeable to Seller, and buyer assumes the risk of any such use. Each tablet weighs 0.60 oz. (174 grams).
