PRECAUTIONARY STATEMENTS

Hazards to Humans (and Domestic Animals)

CAUTION: Harmful if absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID

If on skin or clothing
- Take off contaminated clothing.
- Wash skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If in eyes
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes. Then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. In the event of a medical or chemical emergency contact Chem-List, Inc. North America 1-800-225-2924 or Worldwide call, +31-31-246-9325.

Notes to Physician:
This product is a pyrethroid. If large amounts have been ingested, milk, cream, or other digestible fats and oils may increase absorption and so should be avoided.

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applicants and their product must remain out of reach of children. Do not apply this product in calm weather when rain is not predicted for the next 24 hours. This will help prevent drift to water bodies such as ponds, streams, lakes, rivers, and other bodies of water. If you apply at a time when rain is forecast, it should not be expected to start for a period of at least 2 hours after application. Thoroughly wash all equipment and clean all containers before disposing of them. Do not apply when rainfall is expected or when rain is imminent. Do not contaminate surface and ground water by washing or disposing of equipment or unevaluated pesticide by incineration. Do not allow this product to enter any drain during or after application.

DIRECTIONS FOR USE

This is a violation of Federal law to use this product in a manner inconsistent with its labeling. Apply this product to the lawn or garden area. Water treated area as directed on this label. Do not apply to the point of run-off. Do not make applications during application. The product is prohibited directly into septic tanks or drains, or to any area like a gutter where drainage to a sewer, storm drain, water bodies, or aquatic habitat can occur. Do not allow this product to enter any drain during or after application.

General Instructions
Hi-Yield® Ant Killer Granules is for use on lawns, around home foundations (perimeter treatment), ornamental and flower gardens, and vegetable gardens for the control of the insect pests listed in the table below.

Lawns
Apply Hi-Yield® Ant Killer Granules when insect activity or damage is first observed (tawny thins, brown spots appear, or moths fly up from the grass when mown). Spread Hi-Yield® Ant Killer Granules uniformly over lawn. Water in product after application. Do not use any other water, disease, or insect control products for at least one week after application. For best results use to prevent further damage, treat the entire lawn, not just the browned areas. Repeat application if there are signs of renewed insect activity.

NOTES: Foodadiums such as blueberries, raspberries, and strawberries are safe for use in the surrounding lawns. Do not use this product in the vicinity of veterinary medical care facilities. Do not use in the vicinity of homes or other buildings without the written permission of the property owner.

Ornamentals & Flowers
Hi-Yield® Ant Killer Granules can be applied just before planting or after plants emerge. Apply 0.5" to 1 lb. evenly over each 500 sq. ft. area. Repeat if there are signs of renewed insect activity.

Home Foundation / Barrier Treatment
Evenly apply a 1 lb. rate band next to the house or foundation. Use 0.5" to 1 lb. for each 500 sq. ft. (0.1 lb. to 0.25 lb. ft.)

Vegetable Gardens
Hi-Yield® Ant Killer Granules can be applied to the vegetables listed below. Apply a single application before planting or after plants emerge and work into the top 4 to 6 inches of soil. Use 1 lb. of product for 500 sq. ft. area.

Wearers

Censides
Milipes
Pavement Ants

Uniformly apply 1 lb. per 250 sq. ft. area of lawn. For best results, thoroughly water the treated area after application.

In New York State, this product may NOT be applied to any grass or turf area (lawns) within 100 feet of a water body (lake, pond, river, stream, wellbore, or drainage ditch).

In New York State, do not make a single insecticidal application of this product if there are signs of renewed insect activity, but not sooner than two weeks after the first application.

STORAGE AND DISPOSAL

Prohibitions: Do not contaminate water, food, or feed by storage or disposal. Pesticide Storage: Keep out of reach of children and domestic animals. Store in original containers only. Store in a cool, dry place and avoid excess heat. Carefully open containers. For rigid containers, do not use partial contents and do not mix with other chemicals. If partially filled, call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain. Notice: Buy assume all responsibility for safety and use in accordance with directions.
