Do not apply more than 16 oz of this product per acre in a single treatment application.
OUTDOOR USE
For ground application, remove or cover all exposed food and cutting wounds. Cover all food handling surfaces or wash thoroughly after treatment and before use.

DO NOT use on edible crops.

PLUGS, DRAWS AND INSECTICIDES – AROUND RESIDENCES
- Treat around non-urban areas with wide open spaces, open areas, or large open areas, or those with a history of pest damage. Avoid applying around structures, water bodies, and irrigation systems.
- Apply at a rate of 1 to 3 gallons (9 to 22 liters) per acre.
- Keepede around areas to be treated.
- Avoid water run-off to sensitive areas, such as streams, ponds, and lakes.
- Treat only when necessary, as there is a risk of drift.
- Apply only when weather conditions are favorable for drift control.

USE ON LIVESTOCK AND IN AND
AROUND LIVESTOCK HOMES
Use is limited to feed, water, hay, and bedding materials, as well as livestock housing.

MOWING LIVESTOCK BEFORE APPLYING AS A SPRAY
- Mow prior to spraying to prevent damage from sprays and other pesticide products. Mow at least 10 days before spraying to avoid drift onto treated areas.
- Do not mow within 10 feet of treated areas.

DOMESTIC AERIAL USE (Cattle, Hogs, Poultry, etc.)
- Avoid applying over open areas, such as feedlots or pastures, where livestock may come into contact with the treated area.
- Avoid applying over water bodies where livestock may drink.

STORAGE AND DISPOSAL
- Do not contaminate water, food, or feed by storage or disposal.
- Store in a cool, dry area away from food and foodstuffs.
- Handle properly to avoid contamination of the environment.
- Do not pour into drains or water bodies.
- Do not apply to areas accessible to wildlife.

LIMITED WARRANTY
