This product is designed specifically as a general non-acid cleaner and disinfectant for use in nursing homes, hospitals, schools, lodging establishments, veterinary clinics and pet shops where housekeeping is of prime importance in controlling the hazard of cross contamination. It is formulated to disinfect hard, non-porous, inanimate environmental surfaces: floors, walls, metal surfaces, stainless steel surfaces, plastic surfaces, glazed porcelain, glazed ceramic tile and cabinets. For plastic and painted surfaces, spot test on an inconspicuous area before use. If the rinse with potable water is required for surfaces in direct contact with food, DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is not for sale or use on critical or semi-critical medical device surfaces. DISINFECTION, DEODORIZING, AND CLEANING: Remove gross soil and debris prior to application of the detergent to ensure complete rinsing of surfaces to be treated. Spray area until it is covered with the solution. Allow product to penetrate and the surface to remain wet for 3 minutes; the Bloodborne Pathogen scaffold surface to remain wet for 5 minutes for HIV 1 minute and tip HIV and HCV 5 minutes. No scrubbing is necessary. Wipe off with a clean cloth. Rinse with water. This product will not leave a residue. Inactivation of animal quarters and kennels: Before using this product, remove all animals and feed from premises. Remove all litter and droppings from floors, walls and surfaces of facilities occupied or traversed by animals. Empty all troughs, nest boxes and waterers before application. Thoroughly clean all surfaces with soap or detergent and rinse with water. Apply this product for disinfection of pre-cleaned animal quarters and kennels for a period of 5 minutes. Forbovine Viral Diarrhea Virus (BVDV) 5 minutes (for Feline Calicivirus and Rabies virus 30 minutes (for Canine Parvovirus). Thoroughly clean other buildings and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried. All treated equipment that will contact food or drinking water must be rinsed with potable water before reuse. Using approved AOAC test methods, in the presence of 5% blood serum and a 1 minute contact time, unless otherwise noted, this product kills the following: BACTERIAL ACTIVITY: - This product kills hard, non-porous inanimate surfaces: Pseudomonas aeruginosa, Listeria monocytogenes, Staphylococcus aureus, Salmonella (choleraesuis) enterica, Enterococcus faecalis. Escherichia coli, Citrobacter freundii, (Necrotizing Fasciitis-Group A). Methicillin resistant Staphylococcus aureus (MRSA), Vancomycin resistant Enterococcus faecium (VRE), Streptococcus pyogenes, Escherichia coli, Enterococcus faecium, Escherichia coli O157:H7, Streptococcus pyogenes, E. coli 0157:H7, Staphylococcus aureus, Salmonella (choleraesuis) enterica, Enterococcus faecalis, Escherichia coli, Citrobacter freundii, (Necrotizing Fasciitis-Group A). ANTIMICROBIAL RESISTANT BACTERICAL ACTIVITY: Metronillic resistant Staphylococcus aureus (MRS). Vancomycin resistant Enterococcus faecium (VRE), vancomycin intermediate resistant Staphylococcus aureus (VRSA), TUBERCULOCIDAL ACTIVITY: This product exhibits disinfectant efficiency against Mycobacterium tuberculosis (BDT) at 20 degrees Celsius (50°F) when the treated surface is allowed to remain wet for 5 minutes. VIRUCIDAL ACTIVITY: This product kills HIV, HCV and HCV on PRE-CLEANED ENVIROMENTAL SURFACES/OBJECTS SOILED with BLOOD/BODY FLUIDS. The soiling is not significant in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled are identified. This product is intended for use with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), Hepatitis B Virus (HBV), Hepatitis C Virus (HCV), Norovirus (for Bovine Viral Diarrhea Virus), Feline Calicivirus and Rabies Virus (for 30 seconds). Kills Pandemic 2009 H1N1 Influenza A Virus (formerly called swine flu). KILLS HIV, HCV, HCV on SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS. PERSONAL PROTECTION: When handling items soaked with blood or body fluids use extra-large gloves, goggles, mask, and eye protectors. CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product. CONTACT TIME: The time allowed for NME and HCV from HIV 5 minutes, for HIV 1 minute. These contact times will not control other common types of viruses and bacteria. DISPOSAL OF INFECTIOUS MATERIALS: Fumigating and VIRUCIDAL AND TUBERCULOCIDAL IN THE PRESENCE OF ORGANIC SOIL (5% BLOOD SERUM).

**ACTIVE INGREDIENTS:**
- n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18)
- n-Alkyl (66% C12, 34% C14)
- dimethyl benzyl ammonium chloride .........0.105%
- dimethyl ethylbenzyl ammonium chloride ..........0.105%
- 311

**DISINFECTANT 311**

**KEEP OUT OF REACH OF CHILDREN**

**SAFE USE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS AND FIRST AID.**

**FIRST AID:**
- Keep out of reach of children. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco.

**PRECAUTIONARY STATEMENTS**

**STORAGE AND DISPOSAL**

**DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.**

**PESTICIDE STORAGE:**
- Store in a dry place, no lower in temperature than 50°F or higher than 120°F.

**CONTAINER DISPOSAL:**
- Nonrefillable. Use entire container. When container is empty, store empty container with secondary container. Clean container promptly after emptying. Triple rinse containers. Follow container 1 full with water and reclos. Appilate as directed. Follow Pesticide Disposal instructions for applicable pesticide. Drain for 10 seconds after the flow begins to drip. Repeat procedure two more times. Offer for recycling or composting, if available. If not, available, puncture and dispose in a secure landfill.

**FUNGICIDAL ACTIVITY**
- This product is fungicidal against the pathogenic fungus, Trichophyton mentagrophytes (Athlete’s Foot fungus) (a cause of ring worm of the foot), used with a 10 minute contact time on clean, non-porous, hard surfaces as found in bathrooms, showers, clothes lockers, or other areas commonly contacted by bare feet. EFFICACY TESTS HAVE DEMONSTRATED THAT THIS PRODUCT IS AN EFFECTIVE BACTERICIDE, FUNGICIDE AND VIRUCIDE IN THE PRESENCE OF ORGANIC SOIL (5% BLOOD SERUM).

**DIRECTIONS FOR USE:**
- Use the product in a manner consistent with its labeling. This product is not for sale or use on critical or semi-critical medical device surfaces. DISINFECTION, DEODORIZING, AND CLEANING: Remove gross soil and debris prior to application of the detergent to ensure complete rinsing of surfaces to be treated.
