HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

CORROSIVE
CAUSES IRREVERSIBLE EYE DAMAGE AND SKIN BURNS
MAY CAUSE ALLERGIC SKIN REACTION
HARMFUL IF INHALED, HARMFUL IF SWALLOWED OR ABSORBED THROUGH THE SKIN

Do not get in eyes, on skin, or on clothing. Mixes, bades and others exposed to this product must wear long-sleeved shirt and long pants. Chemical resistant gloves such as nitrile or butyl rubber, sturdy rubber or neoprene gloves and chemical resistant apron. Discard clothing or other absorbent materials that have been cleaned or heavily contaminated with this product's concentrates. Do not handle. Follow manufacturer's instructions for cleaning/monitoring PPE. If no such instructions for nitrile-resistant, coated, coated and hot water. Keep and wash PPE separately from other laundry. Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing immediately if PPE gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly. This product may cause skin irritation reactions in some people.

ENVIRONMENTAL HAZARDS

This chemical is toxic to aquatic life. Do not disperse effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified if writing prior to discharge. Do not disperse effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. Do not contaminate water by cleaning of equipment or disposal of waste. Apply the pesticide only as specified on this label.

STORAGE AND DISPOSAL

PESTICIDE STORAGE

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Do not apply this product in a way that will contact workers or other persons.

PESTICIDE DISPOSAL

Pesticide wastes are acute hazardous. Improper disposal of excess pesticide or rinse waste is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact the National Pesticide Information Clearinghouse or call the following EPA Regional Office for guidance:

CONTAINER DISPOSAL

Nonrefillable container. Do not reuse or refill this container. Triple rinse rinse container (or equivalent) promptly after emptying. This offers for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by procedures approved by state and local authorities.

GENERAL: CONSULT FEDERAL, STATE OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

IN-CONTAINER PRESERVATION

KATHON™ ICP III BIOCIDE is an in-container preservative for the control of bacteria and fungi in liquid dishwashing detergents, automotive appearance products, such as cleansers, waxes, polishes, and liquid body products, such as fabric softeners, laundry detergents, pre-shrubs and shampoo. Add 0.1-0.5 pound KATHON™ ICP III BIOCIDE (100-500 ppm) to each 1000 pound (453.6 kg) batch to be treated to provide 0.5-25 ppm active biocides. KATHON™ ICP III BIOCIDE is recommended for the control of bacteria and fungi in liquid dishwashing detergents, automotive appearance products, such as cleansers, waxes, polishes, and liquid body products, such as fabric softeners, laundry detergents, pre-shrubs and shampoo. Add 0.1-0.5 pound KATHON™ ICP III BIOCIDE (100-500 ppm) to each 1000 pound (453.6 kg) batch to be treated to provide 0.5-25 ppm active biocides. To ensure uniform distribution, thoroughly mix KATHON™ ICP III BIOCIDE into product with agitation. Mix thoroughly until evenly dispersed throughout the product.

KATHON™ ICP III BIOCIDE is recommended for the control of bacteria and fungi in aqueous raw materials such as silicone emulsions and surfactants used in industrial and household consumer products. KATHON™ ICP III BIOCIDE is also recommended for the control of bacteria and fungi in package utility products, such as non-microbial soaps and shampoos. Add 0.4 to 1.5 parts KATHON™ ICP III BIOCIDE (100-400 ppm) to each 1000 pound (453.6 kg) batch to provide 0.25-1 ppm active biocides.

SILO CONCENTRATES:

KATHON™ ICP III BIOCIDE should be added to the concentrate at a level to ensure that the final use dilution of the product will contain 415-500 ppm KATHON™ ICP III BIOCIDE (5-6.25 ppm active biocides).

CONDITIONS OF SALE AND WARRANTY: Note that this warranty is void if failure to properly maintain this product occurs. Warranty is void if product has been used on the product at a level of 90% or less. Warranty is void if the product is not returned in accordance with the terms of the MoA. OUR LIABILITY UNDER ANY EXPRESS OR IMPLIED CONDITION OF SALE OR WARRANTY IS LIMITED TO THE PURCHASE PRICE FOR THE PRODUCT. IN NO EVENT SHALL WE BE LIABLE FOR ANY DIRECT, INDIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE AND STORAGE OR USE OF THIS PRODUCT.
