TG Ballastcleaner®

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. Corrosive. May cause severe skin and eye irritation or chemical burns to broken skin. Causes eye damage. Do not get in eyes, on skin, or on clothing. Wear safety glasses or goggles and rubber gloves when handling this product. Wash after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated. Remove and wash contaminated clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS
Strong oxidizing agent. Using only for ballast water treatment according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release chlorine gas which is irritating to eyes, lungs and mucous membranes.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

KEEP OUT OF REACH OF CHILDREN

FIRST AID

If on skin or clothing:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If in eyes:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If swallowed:
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to by a poison control center or doctor.
- Do not give anything to an unconscious person.

If inhaled:
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

- Have the product container or label with you when calling a poison control center or doctor or going for treatment.
- For emergency information on (product, use, etc.), call the National Pesticides Information Center at 1-800-858-7378, 6:30 AM to 4:30 PM Pacific time (PT), seven days a week.

READ THE PRECAUTIONARY STATEMENTS BEFORE USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Ballast Water Treatment for harmful non-indigenous aquatic organism control:
Use is restricted to closed loading and delivery systems. Load TG Ballastcleaner into the ballast water management system on board the ship. TG Ballastcleaner is injected into the ballast water tank with seawater intake to eliminate harmful non-indigenous and invasive aquatic organisms. The injection rate of TG Ballastcleaner must be monitored and regulated using a measuring device such as the TRO (Total Residual Oxidant) meter to ensure that it does not exceed 20 mg/L. After reaching ship’s destination for loading cargo, the residual chlorine in the disinfected ballast water is detoxified and neutralized with sodium sulfite in TG Environmentalguard®. Ballast water may not be discharged into receiving waters until the reading for total residual chlorine on the TRO meter shows non-detectable, or less than 0.01 mg/L.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store in a cool, dry area away from direct sunlight and heat to avoid deterioration. In case of spill, flood area with large quantities of water.

PESTICIDE DISPOSAL: Products or rinsates that cannot be used must be diluted with water before disposal in a sanitary sewer or other approved disposal facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container.. Offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration.
