DANGERS: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Wear chemical splash-proof goggles or face shield, rubber gloves and protective clothing. Wash hands thoroughly with soap and water before eating, drinking, smoking, using any tobacco product and after handling product. Remove contaminated clothing and wash before reusing. Do not apply this product in a way that will contact workers or other persons directly.

PHYSICAL AND CHEMICAL HAZARDS: ACIDIC PRODUCT - Do not mix with other cleaners or chemicals as hazardous gases or heat may be generated. Dilute only with water.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, drainageways or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

IN CASE OF EMERGENCY, CALL A POISON CONTROL CENTER OR DOCTOR FOR TREATMENT ADVICE.

CHEMTREC EMERGENCY NUMBER: 1-800-424-9300
Have the product container or label with you when calling a Poison Control Center or doctor or going in for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Open dumping is prohibited. Store in original container in areas accessible to children. Do not use empty containers.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide spray mixtures or rinsate is a violation of Federal law. These wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Protection Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not re-use or refill this container. Clean container promptly after emptying. Pressure rinse as follows: Empty the remaining contents into application equipment or a mix tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or a mix tank and continue to drain for 10 seconds after the flow begins to drip. Offer for reconditioning, if appropriate.

DIRECTIONS FOR USE:

1. Remove gross food particles by flushing with water or scraping.
2. Wash with a detergent solution.
3. Rinse with potable water.
4. Sanitize with a concentration of 1 fluid ounce of STATIBAC per 4 gallons of water (1:512) by immersion, coarse spray or circulation.
5. Allow sanitizer solution to contact surfaces for at least 1 minute.

CIRCULATION SANITIZING (CIP)
Remove gross food particles by flushing with water, then wash with a detergent solution. Prepare a sufficient volume of sanitizer solution by diluting 1 fluid ounce of STATIBAC per 4 gallons of water (1:512) to fill the system. Pump sanitizer through the equipment, valves and lines to obtain full return flow that is free of air. Circulate to insure that all surfaces are wet for at least 1 minute. Drain and/or air blow system to remove sanitizer. Prepare a fresh sanitizer solution daily. If solution becomes visibly soiled or falls below strength when tested with a STATIBAC test kit, discard and prepare additional sanitizer. Sprayed or circulated sanitizer solutions may not be reused for sanitizing.
