DO NOT USE ON KERNSGRASS OR CERTAIN BENTGRASS STRAINS

ACTIVE INGREDIENT:
Fluazifop-P-butyl* .......................................................... 3.71%
OTHER INGREDIENTS: ......................................................... 96.29%
TOTAL ............................................................................... 100.00%
CAS No. 1602-09-8
EPA Reg. No. 871-019

*Also known as Sperstar®.
Superseed® sold by first letter of lot number.

READ THE ENTIRE LABEL BEFORE USING THIS PRODUCT.
USE ONLY ACCORDING TO LABEL INSTRUCTIONS.
Before using this product, read the Warranty & Service information on the back.
If terms are not acceptable, return the unopened container to the place of purchase at once.
KEEP OUT OF REACH OF CHILDREN

CAUTION
See back panel for First Aid and additional Precautionary Statements

GREENVIEW®
Seed Starter Fertilizer plus Crabgrass Preventer
Fertilizes for superior seed germination and growth
Prevents crabgrass without harming new grass seedlings
PLUS Triple Action Feature Permits Seeding, Crabgrass Control and Fertilization At The Same Time

Treats 6,000 sq. ft. 11-23-10

Net Weight 15 lbs. (6.81 kg.)
DO NOT USE ON BERMUDAGRASS OR CERTAIN BENTGRASS STRAINS

ACTIVE INGREDIENT:
Siduron®..................................................... 3.71%

Precautionary Statements
Hazard to Humans and Domestic Animals

CAUTION
Harmful if swallowed. May cause irritation of eyes, nose, throat and skin. Avoid contact with skin, eyes and clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling.

First Aid
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

IF ON SKIN: Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible.
• Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For Emergency Medical Information call (888) 208-1360.

Environmental Hazards
This product is toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather will help to ensure that wind does not blow pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn will help to prevent run off to water bodies or drainage systems.

Directions for Use
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

NOT FOR USE ON TURF BEING GROWN FOR SALE OR OTHER COMMERCIAL USE AS SOD, OR FOR COMMERCIAL SEED PRODUCTION OR FOR RESEARCH PURPOSES.

Do not apply this product in a way that will contact any person, pet, either directly or through drift. Keep people and pets out of the area during application. Do not allow people or pets to enter the treated area until dusts have settled. Non-target plants can be adversely affected by this product.

Fertilizes grass and controls crabgrass before it emerges as an unsightly lawn weed. Can be used on newly-seeded areas. It will not harm germination of grass seed.

For use on newly-seeded or established plantings of the following grasses:
- Bluegrass
- Fescue
- Redtop
- Smooth Brome
- Perennial Ryegrass
- Orchardgrass
- Zoysiagrass

Bentgrass Strains as follows:
- Penncross
- Highland
- Seaside
- Astoria
- Nimisila
- C-1, C-7 and C-19

DO NOT USE ON OTHER BENTGRASS STRAINS OR BERMUDAGRASS
APPLICATION INSTRUCTIONS

1. Rake the lawn to remove leaves and other debris.

2. On Established Lawns: Apply at the rate of 5 lbs. per 1,000 sq. ft. (15 lb. bag covers 3,000 sq. ft.). Apply after the 1st or 2nd mowing (usually at the time forsythia blossoms start to fall) in the Spring before crabgrass and other annual grass weeds emerge.

3. On Newly-Seeded Areas: Apply at the rate of 2½ lbs. per 1,000 sq. ft. (15 lb. bag covers 6,000 sq. ft.). Apply immediately after seeding in early Spring before crabgrass and other annual weeds emerge.

4. Apply with a fertilizer spreader (see settings below) to insure even coverage.

5. If it does not rain for three days after application, water the treated area thoroughly to get desired results. Timing application just ahead of a predicted rain is ideal.

NOTE: Supplemental applications of lawn fertilizer are needed to achieve a minimum 1 pound nitrogen per 1,000 sq. ft.

NOTE: This product contains the secondary nutrient iron. Iron may stain concrete and should not be applied on dry or water dampened concrete and should be removed from these areas promptly after application by sweeping or blowing. Do not wash off with water.

Drop Spreaders

Apply in a single pass at a rate of 2 1/2 lbs. (New Lawns) or 5 lbs. (Established Lawns) per 1,000 sq. ft. Start on the outside border and apply in a rectangular path working back and forth across the length of the lawn. Overlap the coverage slightly, and shut off spreader before making hard turns.

Broadcast Spreaders

Apply in a single pass at a rate of 2 1/2 lbs. (New Lawns) or 5 lbs. (Established Lawns) per 1,000 sq. ft. Start on the outside border and apply in a circular path working toward the center. Overlap the coverage slightly, and shut off spreader before making hard turns.
