**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage and disposal.

**Pesticide Storage**: Store in original, tightly closed containers above 0°C (32°F) in a secure area inaccessible to children and away from food or feed.

**Pesticide Disposal**: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**Container Disposal**: Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Repeat this procedure two more times. Then offer for recycling or reconditioning if available or puncture and dispose in a sanitary landfill, or by other procedures approved by state and local authorities.

**ENVIRONMENTAL HAZARDS**

For Commercial and Industrial Uses: This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

Deactivation of ConMICShield® can be achieved by the addition of anionic surfactant (such as soap, sulfonates, sulfates) in quantity equivalent to that of ConMICShield®.

A microbistatic agent is an agent that inhibits the growth of odor causing bacteria, bacteria which cause staining and discoloration, fungi (mold and mildew), and algae. This product does not protect users or others against food-borne or disease-causing bacteria.

**FIRST AID**

Have the product container or label with you when calling a poison control center or a doctor, or going for treatment.

**IF IN EYES**:  
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.  
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.  
- Call poison control center or doctor for treatment advice.

**IF INHALED**:  
- Move person to fresh air.  
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.  
- Call a poison control center or doctor for further treatment advice.

**IF ON SKIN**:  
- Take off contaminated clothing.  
- Rinse skin immediately with plenty of water for 15-20 minutes.  
- Call a poison control center or doctor for treatment advice.

**IF SWALLOWED**:  
- Call a poison control center or doctor immediately for treatment advice.  
- Have person sip a glass of water if able to swallow.  
- Do not induce vomiting unless told to do so by a poison control center or doctor.  
- Do not give anything by mouth to an unconscious person.

**DIRECTIONS FOR USE (Continued)**

Dilution Rate: Prepare solution by simply adding ConMICShield® to water and stirring. Dilute ConMICShield® by adding 1 part ConMICShield® to 1 part water, and then applied to organic or inorganic substrates by brushing, dipping, padding, soaking, spraying, fogging or by using foam finishing.

**PESTS CONTROLLED**

- Impacts microbiostatic properties.
- Provides an invisible microbistatic coating to inhibit the growth of odor causing bacteria.
- Provides an invisible microbistatic coating to inhibit the growth of bacteria which cause staining and discoloration.
- Provides an invisible microbistatic coating to inhibit the growth of fungi (mold and mildew).
- Provides an invisible microbistatic coating to inhibit the growth of algae.
- Provides an invisible microbistatic coating to inhibit the growth of odor causing bacteria, bacteria which cause staining, and discoloration, fungi (mold and mildew), and algae.
- Prevents deterioration caused by bacteria and fungi (mold and mildew).
- Inhibits deterioration caused by bacteria.
- Resists development of microbial odors.
- Resists development of stains and discoloration due to bacteria.
- Resists development of stains due to fungi (mold and mildew).
- Resists stains due to algae.
- Resists development of microbial odors, stains and discoloration due to bacteria, fungi (mold and mildew), and algae.
- Provides/creates an invisible barrier to inhibit the growth of odor causing bacteria.
- Provides/creates an invisible barrier to inhibit the growth of bacteria, which cause staining, and discoloration.
- Provides/creates an invisible barrier to inhibit the growth of fungi (mold and mildew).
- Provides/creates an invisible barrier to inhibit the growth of algae.
- Provides/creates an invisible barrier to inhibit the growth of odor causing bacteria, bacteria which cause staining and discoloration, fungi (mold and mildew), and algae.
- Provides bacteriostatic, fungistic, (mold and mildew), and algaeastic activity.

**IMPORTANT: WARRANTY AND DISCLAIMER INFORMATION**

ConShield Technologies, Inc., warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated in this bulletin when used in accordance with directions under normal conditions of use; but this warranty of fitness for a particular purpose does not extend to the use of this product contrary to bulletin instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.

ConShield Technologies, Inc. specifically disclaims any other express or implied warranty, including the warranty of merchantability.
