Stalosan F
For use in livestock housing, to improve the external environment and flooring conditions around animals.

Lack of moisture assists in the reduction of non-public health microorganisms. Stalosan F adsorbs moisture, ammonia, hydrogen sulphide and other gases. Stalosan F eliminates odor causing bacteria, fungi, mold and mildew.

Active Ingredients:
Copper sulphate Pentahydrate (CAS No. 7758-99-8)*...................2.66%
Inert Ingredients.......................................................................................97.34%
TOTAL.........................................................................................................100.00%
*Metallic Copper Equivalent Equal..................................................0.68%

CAUTION
Keep out of Reach of Children

FIRST AID
If in eyes:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment advice. You may also contact the National Pesticide Information Center at 1-800-858-7378, 7 days a week between 7:30am and 3:30pm PST, for emergency treatment advice.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION:
Causes moderate eye irritation. Avoid contact with eyes or clothing. Personal Protective Equipment (PPE): Mixers, loaders, applicators and other handlers must wear the following: Goggles or face shield when applying with blower units; Long-sleeved shirt and long pants, Shoes plus socks. Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product’s concentrate. Do not reuse them.

User Safety Recommendations: Users should:
- Wash hands before eating, drinking, chewing gum, tobacco, or using the toilet.
- Remove clothing/PPE immediately if swallowed, inhaled, or absorbed into skin or eyes.
- Remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates and may contaminate water through runoff. This product has a high volatility potential and therefore, drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not apply directly to water, to areas where water surface is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a manner that would allow drift to enter any surface or underground water, fish or fish-bearing waters, or to any area from which surface water may be diverted, reclaimed, or abstracted. Do not apply near bodies of water or to areas where surface water may be present. Do not apply this product in a manner that will result in a ground deposit in or near a stream or other waterway.

Application methods:
Limited application can be conducted by utilizing a hand cranked, spreader or duster device. When using a hand cranked device, carefully deposit product from the bucket or bag into the hopper of the device using a measuring cup consistent with recommended application rates. For more extensive applications, use an electric or gas powered blower unit capable of blowing 300 - 400 cubic feet per minute. Select blowers with variable speed control. Place the hose so that wind is not deflected. When using hand operated blower units, only one application is recommended per day. For more extensive applications, use an electric or gas powered blower unit capable of blowing 300 - 400 cubic feet per minute. Select blowers with variable speed control. Place the hose so that wind is not deflected. When using hand operated blower units, only one application is recommended per day.

Dosage rates:
Add 1 pound of Stalosan F to every 100 sq. ft. If the area is badly affected, increase the dosage slightly. Initially apply Stalosan F once a day for 3 days. Continue treatment once a week, thereafter. Stalosan F can be applied while animals are present.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store this product in a cool, dry area away from direct sunlight and heat to avoid deterioration and in an area inaccessible to children. PESTICIDE DISPOSAL: Pesticide wastes are acute hazards. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency for guidance. CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Once bag is empty, dispose of in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
