PetLock™ Plus for Dogs:

KILLS FLEAS, FLEA EGGS & LARVAE and CHEWING LICE

Kills all stages of ticks including those that may transmit Lyme disease, and to aid in control of sarcoptic mange mites. Apply this product once a month for up to three months, if there is a high risk of re-infestation or if the dog has fleas which may transmit Lyme disease. Apply the treatment to the dog's skin. PetLock™ Plus for Dogs contains the active ingredients fipronil and (S)-methoprene that effectively kills and controls fleas, ticks, and chewing lice. PetLock™ Plus for Dogs is fast-acting, long-lasting, waterproof, and easy to use. PetLock™ Plus for Dogs remains effective even after bathing, water immersion, or exposure to sunlight. PetLock™ Plus for Dogs can also be used on breeding, pregnant and lactating bitches. Do not allow your dog to ingest this product. Do not apply to dogs weighing less than 6 pounds. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Always read and follow the entire label and package insert before each use. Follow all directions and precautionary statements carefully. Use on dogs only. DO NOT USE ON RABBITS OR OTHER ANIMALS. STATEMENTS CAREFULLY. USE ON DOGS ONLY. DO NOT USE ON CATS.

USE ONLY ON DOGS CAPABLE OF CLEARLY HAVING INGESTED THE PRODUCT.

USE ON DOGS weighing 23-44 LBS and 8 WEEKS OR OLDER. 

ACTIVE INGREDIENTS:
- FIPRONIL AND (S)-METHOPRENE

CONTAINS THE SAME ACTIVE INGREDIENTS FOUND IN FRONTLINE PLUS
