TO APPLY PETLOCK™ PLUS FOR CATS:

1. Cut along scissor cut line to separate unit blades. Squeeze applicator applying entire contents in a single spot to the cat's skin. Avoid superficial application to sensitive areas such as ears and eyes. Each applicator contains enough treatment for one cat.

2. Place applicator tip through cat's hair to the skin level between the shoulder blades. Squeeze applicator to dispense formula onto cat's skin in a single spot. Avoid superficial application to sensitive areas such as ears and eyes. Each applicator contains enough treatment for one cat.

3. Cut corner, peel backing away from applicator tip. If entire contents are not used in a single application, gently remove applicator tip from the applicator container intact and place the applicator tip away from the cat to prevent accidental application. If applicator tip has been removed from container, do not reinsert it into the container. Remove any remaining formula from the applicator tip by gently squeezing it over the rim of the applicator container. If the applicator tip is still attached to the container, cut the applicator tip completely off from bottom to top.

WARNING: To the extent consistent with applicable law, TruRx, LLC and/or seller makes no warranty, expressed or implied, inconsistent with its labeling.
