For Use In: Hospitals, Nursing Homes, Businesses, Hotels, Motels, Restaurants, Schools, Institutions and Commercial Establishments

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Product Information

Kills: *Acropeltis niger* (ATCC 16404), *Human Herpes Simplex Virus Type 1 (ATCC VR-733) and Type 2 (ATCC VR-540), *Human Immunodeficiency Virus Type 1 (HIV-1) (AIDS virus), *Influenza A/Hong Kong Virus, Methicillin Resistant *Staphylococcus aureus* (MRSA) (ATCC 33291), *Mycobacterium tuberculosis* var. *bovis* (ATCC 924), *Poliomyelitis Virus Types 1 and 2, Poliovirus* and *Rabies Virus (ATCC 15544), Rabies Vaccine (ATCC 10708), *Staphylococcus aureus* (ATCC 6538), *Staphylococcus epidermidis* (ATCC 29213) and *Staphylococcus aureus* (ATCC 15592) on hard, non-porous, inanimate environmental surfaces.

Respiratory Viruses attributable to Pandemic 2019 H1N1 are caused by Influenza A virus. This product is a broad-spectrum hard surface disinfectant that has been shown to be effective against Influenza A/Hong Kong virus and is expected to inactivate all influenza A viruses including Pandemic 2019 H1N1 (formerly known as “swine flu”).

Disinfects: Disinfects on such bacterial- and viral-carrying surfaces as toilet seats, telephones, garbage and refuse cans, urinals, athletic equipment, light switches, bed pans, empty hampers and other out of the way places.

Disinfect: hard, non-porous surfaces of shoes and slippers.

Controls Mold and Mildew: on manganese, awnings, shower curtains, leather goods. Controls mildew and mold growth on painted or finished walls, ceilings and woodwork in closets, bathrooms, attics, storage areas, sunnier corners, damp and musty corners.

Deodorizes: Reduces annoying odors. Use to control odors in hospitals and nursing homes. Effectively suppresses odors caused by mold and mildew.

General Precautions and Restrictions

Do not spray on polished wood surfaces, rayon fabrics or on acrylic plastics. Solvents in spray may cause damage to some plastics, castings and other materials if sprayed until wet. This product is not for use on medical devices or medical equipment surfaces.

Application Instructions

Shake well before using and occasionally while spraying. Clean surface thoroughly with an effective cleaning compound prior to treatment. Remove all gross film or heavy soil from all surfaces to be treated.

To Disinfect and for Tuberculocidal Activity: After surface is cleaned, thoroughly spray 5 to 8 feet from surface to be treated. Spray 3-4 seconds until surface is wet. Allow to dry without wiping or allow spray to contact treated surface for a minimum of ten minutes prior to wiping. For herpes Simplex Virus Types 1 and 2 spray 5-10 seconds until the surface is wet. Allow to dry without wiping or allow spray to contact treated surface for a minimum of ten minutes prior to wiping. Tuberculocidal in 10 minutes at 25°C.

To Control Surface Mildew: After surface is cleaned, cover surface with mist. Repeat treatment every week for effective control. For Staphylococcus Aureus (MRSA), *Pseudomonas aeruginosa* (ATCC 19430) and *Enterococcus faecalis* (ATCC 29212) on hard, non-porous, inanimate environmental surfaces.

Special Instructions for Cleaning and Decontamination Against HIV on Surfaces/Objects Soiled with Blood/Body Fluids: on protected environmental surfaces/objects previously soiled with blood/body fluids in health care settings (or other settings in which there is an expected likelihood of soiling of Healthcare workers’ or laboratory personnel’s hands or of environmental surfaces) that of suspected blood/other body fluids, and in which the surface/object is likely to be soiled with blood or other body fluids can be associated with the potential for transmission of HIV. Personal Protection: Use of disposable items soiled with blood or body fluids, use appropriate barrier protection such as disposable latex gloves, gowns, masks or eye coverings. Disinfection Procedures: Blood or other body fluids must be thoroughly cleaned from surfaces and objects before application of disinfectant. Contact Time: Spray surface to be treated 3-4 seconds, from a distance of 6-8 inches, until surface is wet. Allow spray to dry without wiping or allow spray to contact treated surface for a minimum of ten minutes prior to wiping. Disposal of Infectious Materials: Blood and other body fluids should be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry (preferably locked) storage area away from direct sunlight, windows, frames and other sources of heat or ignition. Pesticide Disposal: Wastes resulting from the use of this pesticide may be disposed of on site or at an approved waste disposal facility. Container Disposal: Nonrefillable containers do not reuse or refill this container. Do not incinerate or puncture if empty. Replace cap, offer for recycling, if available. Otherwise dispose of in trash. If partly filled: Call your local solid waste disposal agency for disposal instructions.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Note: This product contains a chemical(s) known to the state of California to cause cancer.

First Aid:

If on Skin or Clothing: Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes. If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed: Do not induce vomiting. Give 1-2 tsp. of vegetable oil to prevent reflux. For symptomatic relief, give 2-4 tbsp. milk. Do not give syrup of ipecac. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor.

Physical or Chemical Hazards

Flammable. Contents under pressure. Do not use or store near fire, sparks or heated surfaces. Do not store in direct sunlight. Do not smoke while using this product. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting.

For Healthcare Use

Disinfects:

- HIV-1 (AIDS Virus),
- Methicillin Resistant *Staphylococcus aureus* (MRSA),
- Vancomycin Resistant *Enterococcus faecalis* (VRE),
- *Poliomyelitis Virus Types 1 and 2*, *Influenza A/Hong Kong Virus*,
- *Mycobacterium Tuberculosis* (TB) and
- *Herpes Simplex Virus Types 1 and 2*

On Hard, Nonporous, Inanimate Environmental Surfaces

Kills Pandemic 2009 H1N1 Influenza A Virus*" (formerly called “swine flu")

Kills Most Germs:

- Controls Mold and Mildew:
- Eliminates Odors
- Bacterial:
- Staphylococcal - Tubercococcal
- Fungicidal:
- Pseudomonicidal - Virucidal

Active Ingredients:

- Orthophenylphenol (CAS No. 90-43-7) 0.170%
- Para-tertary Amylenol (CAS No. 80-46-6) 0.045%
- Ethanol (CAS No. 64-17-5) 49.950%
- Other Ingredients 49.999%
- Total 100.004%

- Contains Sodium Sulfate.
