**FIRST AID**

If Swallowed: • Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. • Have person sip a glass of water if able to swallow. • Do not give anything by mouth to an unconscious person.

If Inhaled: • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. • Call a poison control center or doctor for further treatment advice.

**NOTE TO PHYSICIAN:** Vomiting may cause aspiration pneumonia.

For information regarding medical emergencies or pesticide incidents, call 1-888-740-8712. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**

Harmful if inhaled. Avoid breathing vapor or spray mist. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

**Personal Protective Equipment (PPE) Applicators, and other handlers must wear the following:** Long-sleeved shirt, Long pants, Shoes and socks.

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

**PHYSICAL OR CHEMICAL HAZARDS**

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause burning. Do not use this product in electrical equipment (where there is exposed wiring or contact points) due to possibility of short circuits and shock hazard. Do not spray on plastic, painted, or varnished surfaces or directly into any electronic equipment such as radios, televisions, computers, etc.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is recommended for use as an aid for inspections, to determine the presence of insects, their locations and an indication of the size and distribution of the infestation. It provides rapid kill of insects contacted.

**PRECAUTIONS AND RESTRICTIONS**

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Do not remain in treated area. Exit area immediately and remain outside the treated area until aerosols, vapors, and/or mists have dissipated. Do not enter or allow others to enter until sprays have dried. Do not allow adults, children, or pets to enter the treated area for at least 15 minutes, until vapors, mists, and aerosols have dispersed, and the treated area has been thoroughly ventilated. Do not remain in treated area and thoroughly ventilate the area after treatment is completed. Do not contaminate water, food, or foodstuffs. Remove all pets and birds. For aquariums, remove cover and turn off air pumps (if conditions permit).

**IN HOSPITALS:** Remove patients prior to treating the facility. Thoroughly ventilate area for at least two hours prior to returning patients.

**IN PLANE CARGO AREAS:** Application of this product in airplane cabins is strictly prohibited. Only treat cargo areas while plane is vacant. Following treatment, thoroughly ventilate cargo areas for at least 2 hours prior to reoccupying. Remove or cover exposed food and drinking water before application. Remove or cover foods, food processing equipment, and food preparation surfaces, or wash them before use. Do not make space spray applications when facility is in operation. Prior to space spray applications, cover or remove food. Prior to space spray applications, cover food processing surfaces or clean after treatment and before use.

**INDOOR USE ONLY**

**FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS:** Foods should be removed or covered during general volumetric treatment. After general volumetric treatment, all exposed food processing surfaces and equipment should be thoroughly washed with an effective cleaning compound followed by a potable water rinse before using. Careful crack and crevice application for inspection purposes is permissible at all times. In food handling establishments, do not apply as a space spray while food processing is underway. Do not apply more than 1 time per day.

**FLYING INSECTS:** (Flies, Mosquitoes, Small Flying Moths, Wasps, Gnats) Close all windows and doors. Appply upward in a sweeping motion at a rate of 1-2 seconds per 1,000 cubic feet. Keep treated area closed for at least 15 minutes. Open and thoroughly ventilate treated area before reoccupying. Do not apply more than 1 time per day. **CRAWLING INSECTS:** (Cockroaches, Ants, Spiders, Silverfish) General Volumetric Treatment—Open cabinets and doors into space to be treated. Turn off air conditioners and fans and open windows and doors before treating. Dispense toward areas suspected of greatest insect harborage at a rate of 1-2 seconds per 1,000 cubic feet. Contact as many insects as possible. Keep treated area closed for at least 15 minutes. Open and thoroughly ventilate the area after reoccupying. Do not apply more than 1 time per day. Also spray into cracks, crevices, and hiding areas such as baseboards, moldings, door frames, under sinks, behind stoves and refrigerators and around plumbing and drains. **FLEAS:** Spray sleeping quarters, bedding, floor, and floor covering where pets are kept. Apply for 10-15 seconds per 100 sq. ft. of area. **FLYING INSECTS:** (Flies, Mosquitoes, Small Flying Moths, Wasps, Gnats) Close all windows and doors. **CRACKS, CREVICES, AND CLOSED HOLES:** Inject SureKill®Advanced Insecticide Products into cracks and crevices, or closed voids and other insect harborage areas including around containers and covers and other insects tend to congregate. Apply for 10-15 seconds per 100 sq. ft. of area. Any infested stored products should be treated with an effective method intended for that purpose. **TICKS:** Direct application through pet douches, shampoos, and inject insect and inject product. Several holes may be required in long running voids. Insects that are contacted will be driven from their harborage sites. Spray SureKill®Advanced Insecticide Products Flusher for 1 to 3 seconds into each of the open void areas in, under, or around equipment, stored items, shelves, cabinets, cooking equipment, washers, dryers and refrigerators to kill and drive listed insects from these areas.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal. **PESTICIDE STORAGE:** Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food. **PESTICIDE DISPOSAL AND CONTAINER HANDLING:** Do not re-use or refill this container. Do not flush or incinerate. Do not contaminate water, food, or feed by storage or disposal. **Pesticide Storage:** Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food. **PESTICIDE DISPOSAL AND CONTAINER HANDLING:** Do not re-use or refill this container. Do not flush or incinerate. Do not contaminate water, food, or feed by storage or disposal.
