Dog MD Maximum Defense™ Flea & Tick Topical

is an effective and easy to use product. This product has demonstrated greater than 92% control of fleas within one day after application. Ticks will be prevented from developing into biting adults for up to 4 months. As with all flea and tick control products, Dog MD Maximum Defense™ Flea & Tick Topical should be used as part of a program aimed at reducing flea populations in the dog's environment (bedding, carpets, kennel, yard). Consult your veterinarian, entomologist, or retailer for program recommendations.

Do not contaminate water, food or feed by storage and disposal.

PESTICIDE STORAGE:
Do not remove tube from the pack until ready to use. Store in a cool (below 25˚ C), dry place out of reach of children. Do not refrigerate. Protect from direct sunlight.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:
Nonrefillable container. Do not reuse or refill this container.

If empty:
Place in trash or offer for recycling if available.

If partly filled:
Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

STORAGE AND DISPOSAL
READ ENTIRE LABEL BEFORE EACH USE.
USE ONLY ON DOGS 3 MONTHS OF AGE OR OLDER.
DO NOT USE ON CATS
PRECAUTIONARY STATEMENTS
HAZARDS TO DOMESTIC ANIMALS
CAUTION
FOR EXTERNAL USE ON DOGS ONLY. Do not use on puppies under 3 months of age. Consult a veterinarian before using this product on dogs living with pregnant or nursing females. For pregnant or nursing females, use only on non-breeding dogs. Do not inject into open wounds. See Back Label Panel for additional precautionary statements. If your dog exhibits vomiting or diarrhea, contact your veterinarian immediately. Do not use on dogs that are sensitive or allergic to the active ingredients. If you suspect that this product has caused an allergic reaction, contact your veterinarian immediately.

DO NOT USE ON CATS.
May be toxic or potentially fatal if applied to or ingested by cats. Accidental application to cats and/or grooming a cat with the contents of the applicator tube may cause lethargy, salivation, vomiting, stupor, or death. If a cat ingests the product, it should be treated with an emetic in consultation with a veterinarian to avoid the toxic effects that may result in tremors and/or uncoordinated muscle movements. If this occurs, immediate veterinary care should be provided.

ENVIRONMENTAL HAZARDS
This product is extremely toxic to fish. Do not apply directly to or near water. Drift and run-off may be hazardous to fish in water adjacent to treated areas. Do not contaminate water when disposing of equipment washwater or rinsate. See Directions for Use for additional precautions and requirements. Treated dogs should not be allowed to go swimming for 12 hours following treatment.

PHYSICAL OR CHEMICAL HAZARDS
Combustible. Do not use or store near heat or open flame.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Side Effects: Monitor your dog after application. The most common signs of ingestion are excessive salivation and foaming at the mouth. Do not use on dogs exhibiting these symptoms. Consult your veterinarian for treatment. If your dog has an unusual reaction to the initial application, consult a veterinarian before repeating application.

Do not get this product in your dog’s eyes or mouth. Repeat applications may be made if necessary, but do not apply more often than once every 4 weeks.

ONLY for dogs weighing 15 lbs. & Under:
Apply one tube (1.0 mL) (.034 fl oz) of this product as a spot or stripe to the dog’s back between the shoulder blades.

HOW TO APPLY:
Remove product tube from the package. Holding tube with notched end pointing up and away from face and body, cut off narrow end at notches. Invert tube over dog and use open end to part dog’s hair. Squeeze tube firmly to apply all of the solution to the dog’s skin. Wrap tube and put in trash.

Kills fleas, ticks, flea eggs & flea larvae
