For use ONLY on dogs between 33-66 lbs
Kills fleas, ticks, flea eggs & flea larvae

MAXIMUM DEFENSE™
Flea & Tick Topical

Dog MD Maximum Defense™ Flea & Tick Topical

Side Effects: Monitor your dog after application. The most common signs of ingestion are excessive salivation and foaming at the mouth. If your dog has an unusual reaction to the initial application, consult a veterinarian before repeating application.

Do not get this product in your dog's eyes or mouth. Repeat applications may be made if necessary, but do not apply more often than once every 4 weeks.

ONLY for dogs weighing between 33-66 lbs:
Apply one tube (3.0 mL) (0.10 fl oz) of this product as a continuous stripe to the dog's back starting between the shoulder blades and ending directly in front of the base of the tail.

WARNING:
Do NOT USE ON CATS. May be toxic or potentially fatal if applied to or ingested by cats. Accidental application to or on interior walls/ceiling/door/door jams/etc. of the dog's environment may also show "lethargy." Cats exhibiting these same symptoms from ingestion should be taken to veterinarian immediately.

WARNING:
DO NOT USE ON PUPPIES UNDER 3 MONTHS OF AGE. Consult a veterinarian before using this product on puppies.

ENVIRONMENTAL HAZARDS
This product is extremely toxic to fish. Do not apply directly to or near water. Drift and run-off may be hazardous to fish in water adjacent to treated areas. Do not contaminate water. Do not apply directly to water, or allow to enter bodies of water.

PHYSICAL OR CHEMICAL HAZARDS
Combustible.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL
READ ENTIRE LABEL BEFORE EACH USE. USE ONLY ON DOGS 3 MONTHS OF AGE OR OLDER. DO NOT USE ON CATS.

KEEP OUT OF REACH OF CHILDREN

CAUTION
This product is toxic if swallowed or inhaled. Do not allow children to play with the product package and applicators.
