WARNING/AVISO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

EPA Reg. No. 100-617

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed. Before using Tilt as permitted according to this supplemental label, read and follow all applicable directions, restrictions, and precautions on the EPA registered label on or attached to the pesticide product container. This Supplemental Labeling contains revised use instructions and or restrictions that may be different from those that appear on the container label. This Supplemental Labeling must be in the possession of the user at the time of pesticide application. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
## DIRECTIONS FOR USE

### Application:
For best results, sufficient water volume must be used to provide thorough coverage. Tilt can be applied by ground, air, or chemigation. For chemigation, apply in 0.1-0.25 inches/A of water. Chemigation with excessive water may lead to a decrease in efficacy.

### Complete list of Rapeseed subgroup 20A:
Borage, crambe, cuphea, echium, flax seed, gold of pleasure, hare’s ear mustard, lesquerella, lunaria, meadowfoam, milkweed, mustard seed, oil radish, poppy seed, rapeseed, sesame, sweet rocket and cultivars and/or hybrids of these.

### Specific Use Restrictions:
1. Do not apply more than 4 ozs./A of Tilt per crop.
2. Do not apply more than 0.113 lbs ai/A per crop of propiconazole-containing products.
3. Do not apply within 30 days of harvest (30 day PHI).
