PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive Chemicals: Very strong acid and alkali may cause severe burns to the eyes and skin. Avoid contact with eyes, skin, and clothing. Keep out of reach of children.

FIRST AID:

IF IN EYES: Hold open eye and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or other emergency service. If skin is not wet, give artificial respiration. If mouth is not wet, give water by mouth. Call a poison control center or doctor for further treatment advice.

IF ON SKIN: Take off contaminated clothing. Rinse skin with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: In case of误用, possible further treatment may include an antacid and activated charcoal.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms.

PHYSICAL OR CHEMICAL HAZARDS:

STRONG CHEMICALS: Acids and alkalis react violently with metal, plastic, and rubber. Do not use in the presence of these materials.

INSTRUCTIONS FOR USE:

Do not use on or near food or foodstuffs unless labeled for use in food-handling areas.

STORAGE AND DISPOSAL:

Store in a cool, dry place. Keep out of reach of children. The product is not hazardous when properly used. Do not incinerate the container. Disposal instructions are included on the package label.

AquaFinesse™ Hot tub Water Care System
[SANITIZING TABLET KIT]

USAGE INSTRUCTIONS:
SHAKE WELL BEFORE USE – read instructions carefully.
AquaFinesse™ must be used with an approved sanitizer of choice.

START UP INSTRUCTIONS for use with sanitizing tablet kit
1. Drain hot tub completely after running Spa Clean to purge lines in older tubs. Run garden hose for 60 seconds before filling the tub with fresh tap water. For new tubs: Run garden hose for 60 seconds before filling the tub with fresh tap water.

2. Balance tub water including Alkalinity, pH and total hardness.

3. Shake the bottle of AquaFinesse™ to mix the solution. Pour the correct amount of AquaFinesse™ (as indicated in the manual) into the water. Turn on the jets for a minimum of 2 minutes to activate the AquaFinesse™ water care system.

4. Remove cap from Slow-Release Dispenser, place sanitizer tablet inside the dispenser, close cap, and place dispenser on top of the filter basket in the water. Check dispenser every week to make sure tablets are intact. Replace tablets when gone or as needed. Chlorine reading should be 1.5 – 3 ppm.

5. Rinse filter once a week to ensure total sanitation and clean your filter with AquaFinesse™ filter clean once a month.

6. Rinse filter once a week to ensure total sanitation and clean your filter with AquaFinesse™ filter clean once a month.

ONGOING WEEKLY MAINTENANCE
Repeat steps 2 - 5 on a set day, every week.

MONTHLY
1. We recommend that you have a water sample taken to your retailer for water balance and hardness testing.
2. Clean your filter with AquaFinesse™ Filter Cleaner.

---

**Over 660 gallons or 2460 litres consult dealer for AquaFinesse Swim Spa products.**

---

**SPA SAFETY**
- To avoid possible health hazard to users, never heat spa water above 104°F (40°C).
- The spa use should be limited to 1.5 minute intervals to avoid nausea.
- Do not enter a spa under the influence of alcohol or medication that could cause drowsiness. If you are on medication consult a doctor before using the spa.
- Because of high water temperatures, pregnant women and small children should use caution.
- Do not use electricity near the water. Example: radios or hairdryers.
- Hot water is an ideal medium for spreading infection. People with open wounds should not use the spa.
- Always enter and leave the spa with caution.

---

**CHEMICAL SAFETY**
- Read the directions carefully.
- ALWAYS add chemicals to water, NEVER add water to the chemicals.
- Do not mix chemicals together. Add chemicals one at a time. Rinse out and dry the measuring cup before the addition of the next chemical.
- Store chemicals in a cool, dry place. Keep the container closed when not in use.
- Keep out of reach of children.
- Do not ingest.
- Do not smoke near chemicals.
- If bottle is empty, discard in trash or offer for recycling if available.

---

**FIRST AID**
- If swallowed in undiluted solution, drink large amounts of water. Do not induce vomiting. Avoid alcohol. In case of accident seek medical attention immediately.
