PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS. CAUTION. Harmful if swallowed. Causes eye irritation. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

HAZARDS TO DOMESTIC ANIMALS. For external use on dogs only. Individual sensitivities, while rare, may occur after using this product or pesticides. Certain medications can interact with pesticides. Do not treat your dog with more than one pesticide product at a time. Over dosing your dog can result in serious illness and even death. Consult a veterinarian before using on medicated, dehydrated, aged, pregnant or nursing dogs. Consult a veterinarian before using on dogs with known organ dysfunction. If your dog is showing signs of and/or is being treated for skin disorders, talk to your veterinarian before applying any topical flea and tick control product.

FIRST AID
If swallowed: Call a poison control center or a doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If in eyes: Flush eyes with plenty of water. Call a doctor if irritation persists.

If on skin: Wash with plenty of soap and water. Get medical attention if irritation persists.

HOT LINE NUMBER
Have the product container or label with you when calling a poison control center or doctor. You may also contact 1-866-897-8050 for emergency medical treatment information.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DO NOT ALLOW CHILDREN TO APPLY PRODUCT. TO PREVENT HARM TO YOU AND YOUR DOG, READ ENTIRE LABEL BEFORE EACH USE. FOLLOW ALL DIRECTIONS AND PRECAUTIONARY STATEMENTS CAREFULLY. Do not use on cats, rabbits or animals other than dogs. Do not allow your dog to ingest this product. Do not allow your dog to ingest this product. Do not use on puppies under 8 weeks of age or less than 4 lbs. Use entire contents of tube on each dog. Do not use multiple tubes on one dog. Weight your dog to be sure you are applying the right dose formulated for the weight of your dog. Separate the treated dog from all other dogs and cats for 24 hours after treatment has been applied.

SIDE EFFECTS: Monitor your dog after application. Dogs may experience some temporary irritation at the site of application such as redness, scratching or other signs of discomfort. If signs of sensitivity occur, bathe your dog with a mild soap and rinse with large amounts of water. If these or other side effects occur, consult your veterinarian or call 1-866-897-8050. If your dog has any unusual reaction to the initial application, consult a veterinarian before repeating application. The most common signs of accidental ingestion are excessive salivation and foaming at the mouth. If these symptoms occur, immediately feed your dog and continue to monitor your dog for the next 24 hours.

DO NOT USE ON CATS. Keep cats away from treated dogs for 24 hours. If applied to a cat or ingested by a cat, contact your veterinarian.

How to open: Remove the product tube from the package. Separate one tube from the others. Hold the tube with the bulb and press firmly until the medicine is completely expelled. Close the tube immediately to prevent excess material from being lost. DO NOT open the tube before application.

How to apply: Firmly press the tip of the tube into the dog’s skin, as shown below. DO NOT apply more than once every 4 weeks.

STORAGE & DISPOSAL
Keep out of reach of children and pets. Do not refrigerate or freeze. Protect from freezing. Do not contaminate ponds, streams, or wells. Wash hands after handling.

Only For Dogs Weighing 4 to 22 lbs. Do not apply to dogs weighing less than 4 lbs, including small dogs and puppies, 5 weeks or older. Apply one tube (0.57 mL) [0.023 fl oz] as a spot on the dog's back between the shoulder blades.

FREQUENCY OF APPLICATION
Use FLEE Plus IGR for Dogs monthly for complete control of flea, tick, and chewing lice infestations. Studies show that FLEE Plus IGR for Dogs kills adult fleas for up to three months. Apply monthly if your dog is at high risk for flea reinestation. Apply monthly to control lice and chewing lice. FLEE Plus IGR for Dogs remains effective even after bathing, water immersion, or exposure to sunlight. Allow treated area to dry thoroughly. Do not reapply for 30 days.

FLEETM Plus IGR for Dogs contains Fipronil and (S)-Methoprene (insect growth regulator) to effectively kill fleas and ticks (including those that may transmit Lyme disease). The active ingredients in FLEET Plus IGR for Dogs feature a sustained release formula developed for fast-acting and long-lasting control of fleas, ticks, and chewing lice for up to one month on dogs.

- Dual Action: Fipronil with (S)-methoprene insect growth regulator effectively breaks the flea life cycle
- Use FLEET Plus IGR for Dogs monthly to break the flea life cycle
- Kills fleas, ticks, chewing lice, flea eggs, flea larvae and prevents the development of flea pupae
- Kills ticks including those that may transmit Lyme disease
- Kills brown dog ticks, American dog ticks, lone star ticks, and deer ticks for up to one month
- Rapid elimination of chewing lice infestation
- Controls mites that may cause sarcoptic mange
- Can be used on breeding, pregnant and lactating dogs

FAST-ACTING, LONG-LASTING, WATERPROOF
