Do not use on food and feed commodities

This product is exempt from registration with the U.S. Environmental Protection Agency under FIFRA section 25(b) regulations.

Net Contents 15 Pounds
READ ENTIRE LABEL — Read Directions for Use, Precautions, & Disclaimer of warranties before using this product!

Guardian EARTH is recommended for all interior and exterior uses, as well as for all modes of transportation. Since all materials used in this product are used as a food additive, it may be used indoors. It may also be used in food processing areas where it will not be disturbed, including, but not limited to, crack & crevice and wall voids. Use with the Treatment Precautions below.

TREATMENT PRECAUTIONS

READ THIS BEFORE USING: Apply this product in areas where it will not be disturbed. Airborne particles may cause respiratory irritation. Do not apply to drapes, clothing or fabric. Not recommended for use on animal hair, wool carpets, or other delicate materials, consult with manufacturer before use. In the event of an accidental treatment or spill, dilute with water and wipe off surface with a damp cloth, or vacuum up dry product with use of a HEPA filter vacuum.

DIRECTIONS FOR USE: Apply according to the label in attics, sub-area and other crawlspace, wall voids, around electrical boxes, inside soffits and other construction voids, and anywhere insects are found, to help provide control of ants, centipedes, cockroaches, crickets, box elder beetles, earwigs, firebrats, silverfish, fleas, carpet beetles, millipedes, sowbugs, pillbugs, scorpions, spiders, wasps, bees, yellow jackets and other stinging insects, bed bugs and other nuisance pests. Retreat infestations as needed.

MIXTURE: READY TO USE PESTICIDE. Recommended for undiluted/direct use in power dusters, hand dusters, sprinkling, or liquid sprayers:

POWER DUSTERS: Apply 4 (four) cups per 1,000 (one thousand) square feet of sub-area or attic crawlspace.
HAND DUSTERS: Apply 2-5 (two to five) ounces on the wires/area behind electrical boxes, in cracks & crevice, or open voids.
SPRINKLING: Apply light sprinkling to infested areas or where insects crawl including, but not limited to, carpets, base of plants, structure, etc.
LIQUID SPRAYERS: Mix 1/2 (one half) cup per gallon of liquid; apply liberally where insects crawl; including, but not limited to, walls, eaves, foundation, wall voids, and cracks & crevices. Note: Use cautiously when spraying on walls and eves as product may leave a residual discoloration (grayish) affect. First spray in test area and allow to dry before spraying entire surface.

Above are recommended amounts for application; however, product may be applied more abundantly than recommended amounts.

Most effective results are achieved when used as part of a treatment protocol that includes physical, environmental and other

FIRST AID

Seek medical attention if necessary.

Poison Control Center Hotline: 1-800-222-1222

If IN Eyes: Flush with plenty of water.
If ON Skin: Wash with soap & water. Call a physician if irritation persists.
If INHALED: Move exposed person(s) to fresh air. Drink plenty of water. Do not induce vomiting. If breathing problems persist call poison control center and/or call a physician.
If INGESTED: Drink plenty of water. Do not induce vomiting. Obtain medical attention if feeling sick or nauseous.

PRECAUTIONARY STATEMENTS

Caution — May cause eye and skin irritation. Avoid contact with eyes, skin and clothing.

Personal Protective Equipment (PPE): Persons handling concentrate are recommended to wear: protective eyewear, chemical resistant gloves made of neoprene, nitrile or natural rubber.

User Safety Recommendations: User should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove clothing immediately if the product gets inside. Wash thoroughly and put on clean clothing. Remove PPE after handling this product. Wash the outside of the gloves before removing.

Physical and Chemical hazards: Do not store near heat or open flame. Store only in original container.
Environmental hazards: May be toxic to fish and aquatic invertebrates. Do not apply directly to water, to areas where surface water may contaminate a stream, or to areas below the high water mark. Use with care when applying to areas adjacent to any body of water. Do not contaminate bodies of water when cleaning and rinsing equipment

Storage & Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage and Spill Procedures: Store upright at room temperature. Avoid exposure to extreme temperatures. In the event of an accidental treatment or spill, dilute with water and wipe off surface with a damp cloth, or vacuum up dry product with use of a HEPA filter vacuum.

Container Disposal: Do not re-use empty containers. Offer for recycling or reconditioning.

Storage: Store in original container in a dry cool place inaccessible to children and pets.

Limitation of Liability

Important: Read the following before using

To the fullest extent permitted by law, the manufacturer disclaims any liability whatsoever for special, incidental or consequential damages resulting from the use or handling of this product. Buyer assumes all responsibility for safety and use not in accordance with label, directions and precautionary statements.
