EPA Letter Dated:

OCT - 8 2009

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide, registered under EPA Reg. No. 10897-4
DIROCTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Pool Start-up/Superchlorination - add 3.25 quarts per 10,000 gallons of pool water (equal to 10 ppm available chlorine). Maintenance dosage is 11 ounces daily or as necessary to maintain residual in 1 - 4 ppm range. For spas, add 5.0 ounces per 1,000 gallons (5 ppm available chlorine) for start-up, superchlorination, and maintenance. Maintain pH between 7.2 and 7.8. Re-entry into treated pools is prohibited above levels of 4 ppm (5 ppm for spas) due to risk of bodily harm. See manufacturer's collateral labeling for additional and complete use directions available at dealer.

NOTE: This product degrades with age. Use a chlorine test kit and increase dosage as necessary to obtain the required level of available chlorine.

ENVIRONMENTAL HAZARDS:
This pesticide is toxic to fish. Keep out of lakes, streams, ponds, and public waters unless in accordance with a NPDES permit. For guidance contact EPA regional office.

PHYSICAL AND CHEMICAL HAZARDS:
Strong oxidizing agent. Mix only with water. Mixing with other chemicals or organic matter will release chlorine gas, irritating to eyes, lungs, and mucous membranes.

STORAGE, DISPOSAL, AND CONTAINER RETURN:
Store in a cool, dry area, away from direct sunlight and heat. In case of spill, flood area with water. Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose. Return bottle to dealer with closure tightly fastened.
