DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

PRODUCT DESCRIPTION: This product uses Ablative Copolymer Technology to enable it to wash away with use, constantly exposing fresh and effective molecule. This Ablative Copolymer Technology also eliminates the build-up of old spent coatings and the heavy sanding needed to remove them. This product provides season long protection against algae, barnacles and other forms of marine fouling in waters with moderate to heavy fouling.

For use in fresh, salt and brackish waters.

COMPATIBILITY: This product can be applied over existing antifouling as long as the old coating is tightly adhered and is in sound condition. When applying over conventional antifouling paints, thoroughly sand with 80 grit wet-or-dry sandpaper. Soft foam based coatings should be removed prior to application of this product.

V.L.C.: Less than 370 grams / liter

COATS REQUIRED: 2 coats, 3 coats on bare wood

THINNER: INTERLUX® BRUSH EASE 433

DRIED TIMES: Touch dry 2 hours

CLEAN UP: INTERLUX® BRUSH EASE 433

THEORETICAL COVERAGE: 455sq ft/gal/coat

APPLICATION TEMPERATURE: 50°F (10°C) and above

APPLICATION SYSTEMS

PREVIOUSLY PAINTED SURFACES – GOOD CONDITION: Remove all traces of loose paint and contamination by sanding the entire surface well with 80 grit sandpaper, wipe surface clean with INTERLUX® Special Thinner 216. Stir thoroughly. Touch up bare areas. Apply two full coats of this product by brush or 3/8" nap roller. Do not apply thin coats. If during application, the brush or roller drags, thin with INTERLUX® BRUSH EASE 433 to improve handling. See compatibility section for additional information.

PREVIOUSLY PAINTED SURFACES – POOR CONDITION: Completely remove all old antifouling paint with INTERLUX® FIBERGLASS PRIMER 299 for fiberglass and epoxy surfaces, INTERLUX® PINTOFF® 195 for wood and by sandblasting underwater metal to near white metal. Proceed with application system for bare wood as described below.

BARE FIBERGLASS – POLYESTER or VINYLESTER

SURFACE PREPARATION: Wash entire surface thoroughly with INTERLUX® FIBERGLASS SOLVENT WASH 202 changing rags frequently. Before liquid dries, wipe with clean dry cloth. Be sure all wax and other contamination is removed, failure to properly clean the surface will result in paint delamination. Sand any imperfections and repair with INTERLUX® SURFACING AND FAIRING COMPOUND 417A/418B; sand and wipe clean. Sanding does not remove surface contamination.

BARE FIBERGLASS – NO SAND SYSTEM: After the surface has been prepared as described above – apply one thin continuous coat of INTERLUX® AL200 FIBERGLASS PRIMER with brush or roller. Follow label directions for overcoating. Apply two coats of this product.

BARE FIBERGLASS – SANDING SYSTEM: After the surface has been prepared as described above – sand entire surface well with 80 grit sandpaper until a flat, matte finish is obtained; wipe off sanding residue with INTERLUX® FIBERGLASS SOLVENT WASH 202 PA. Apply two coats of this product.

BARE WOOD: Remove any surface contamination by wiping with INTERLUX® SPECIAL THINNER 216. Sand entire surface with 80 grit sandpaper. Wipe off sanding residue with INTERLUX® SPECIAL THINNER 216. Repair any imperfections with INTERLUX® SURFACING AND FAIRING COMPOUND 417A/418B sand and wipe clean. Apply first coat of this product reduced with INTERLUX® BRUSH EASE 433 (10% maximum). Apply two additional coats unthinned. Allow a minimum of 16 hours between coats. Fill seams (if necessary) with INTERLUX® SEAM COMPOUND 30 between first and second coats of antifouling paint.

UNDERWATER METALS: Contact the INTERLUX® Technical Service Department at 1-800-469-7589 for full details on how to properly primer underwater metals. Do not use on aluminum.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Causes eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wear protective clothing such as a gloves, long-sleeved cotton shirt, long pants and hat. May be fatal if swallowed or inhaled. Do not breathe vapor or spray mist. Wash exposed parts of body after handling. Disposal of waste. Wear respiratory mask and gloves. Mask or respirator should be approved by the Mine Enforcement and Safety Administration and the National Institute for Occupational Safety and Health. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling.

FIRST AID

If swallowed:

• Immediately call a poison control center or doctor
• Do not induce vomiting unless told to do so by a poison control center or doctor
• Do not give any liquids to the person
• Do not give anything by mouth to an unconscious person

If on skin or clothing:

• Take off contaminated clothing
• Wash skin immediately with plenty of water for 15-20 minutes
• Call a poison control center or doctor for treatment advice

If inhaled:

• Move person to fresh air
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible

• Call a poison control center or doctor for further treatment advice

If in eye:

• Hold eye open and rinse slowly and gently with water for 15-20 minutes
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye

• Call a poison control center or doctor for treatment advice

Other:

• Have the product container or label with you when calling a poison control center or doctor or going for treatment.

Note to Physician: Contains petroleum distillate – vomiting may cause aspiration pneumonitis.

ENVIRONMENTAL HAZARDS: This material is toxic to fish. Do not apply directly to water by cleaning of equipment or disposal of wastes. Do allow in and dust generated during paint removal to enter water. Dispose of paint debris in an approved landfill. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans and other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent to sewer systems without previously notifying the state waste treatment plant authority. For guidance, contact your state waste board or regional office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS: Flammable. Keep away from heat, sparks or open flames.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Open flumes is prohibited.

PESTICIDE DISPOSAL: Pesticide wastes are toxic and hazardous. Improper disposal of excess pesticides, spray mixture or residue is a violation of Federal Law. If these wastes cannot be disposed of by you according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional office for guidance.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container full with water and recaps. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or store for diluting for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

FOR CHEMICAL EMERGENCY, SPILL, LEAK, EXPOSURE OR ACCIDENT, CALL TOLL FREE: CHEMNET 1-800-424-2380 (DAY OR NIGHT) MEDICAL ADVISORY: CONTACT YOUR LOCAL POISON CONTROL CENTER OR CALL 1-800-054-6813.
