MICRON OPTIMA
Base Part A of a Two Part AntiFouling Paint System

PRODUCT DESCRIPTION: MICRON OPTIMA offers an entirely new development in antifouling paint technology. This novel two-part paint was formulated with an advanced coating technology that provides exceptional protection from a full range of fouling and sound-boiling. MICRON OPTIMA also offers a multi-step system that provides superior performance and durability. This system is based on the latest advancements in polymer science, providing unparalleled protection against the most challenging marine environments.

THE EMPLOYER TECHNOLOGY also allows the boat to be treated with an anti-fouling product without the need for a traditional bottom paint. MICRON OPTIMA is not only safer for the environment, but it also offers a more sustainable solution for boat owners.

MICRON OPTIMA can be used on hulls, decks, and even engines, making it a versatile choice for various applications. The product is easy to apply and can be used on a variety of substrates, including fiberglass and metal.

APPLICATION TEMPERATURE: 60°F (15°C) and above

SUGGESTED APPLICATION: Apply Part A using a 6” X 6” (15cm X 15cm) brush or roller. Part A and Part B should be applied within 30 minutes of mixing.

STORAGE INSTRUCTIONS: Store in a cool, dry place. Once mixed, the paint should be used within 30 minutes.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Causes eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing.

Wear protective clothing such as gloves, long-sleeved cotton shirt, long pants, and boot. May be fatal if swallowed or inhaled. Do not breathe vapor, while handling. Avoid contact with skin or eyes. This product is highly irritant and should be used with proper protective equipment.

FIRST AID:

IF SWALLOWED:
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

IF IN EYES:
- Hold eye open and rinse with plenty of water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for further treatment advice.

IF INHALED:
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.

IF SKIN OR CLOTHING:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for further treatment advice.

IF ANY OTHER INFORMATION:
- Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

ENVIROMENTAL HAZARDS:
This material is harmful to fish. Do not apply directly to water by cleaning of equipment or disposal of wastes. Do not allow chips and dust generated during removal to enter water. Disposal of paint debris in an approved landfill is not discharge criterion containing this component into lakes, streams, ponds, arroyos, or other waters. In accordance with MARINE DISCHARGE REDUCTION IMPROVEMENT SYSTEM (MDRIS) and the permitting authority has been notified in writing prior to discharge.

DISCHARGE INTO SEWER SYSTEM WITHOUT PREVIOUS NOTIFICATION TO SEWERAGE SYSTEM OPERATOR IS PROHIBITED.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal. Open dumping prohibited.

PESTICIDE RESIDUES: Pesticide residues are specifically hazardous. Improper disposal of excess pesticide, spray residues or rinsewater is a violation of Federal Law. These residues cannot be disposed of by use according to label instructions. Contact your State Pesticide or Environmental Protection Agency before disposal. For more information, contact your local government or environmental agency.
