PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER
Carcinogenic. Causes irreversible eye damage. May be local irritant. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin, or on clothing. Do not breathe spray mist. Wash thoroughly with soap and water after handling.

Remove and wash contaminated clothing before reuse. Residential (non-commercial) users are advised to wear chemical-resistant gloves, protective eyewear (goggles), safety glasses, or face shield, long sleeve shirt and long pants, socks and shoes. In addition to these minimum PPE, commercial users must wear a disposable coverall with hood and chemical-resistant innerwear. While removing existing paint by sanding or blasting, or applying new antifouling paint, commercial users must wear a respirator with an organic vapor removing cartridge with a P100 filter. Residential (non-commercial) users are advised to wear the same respirators, cartridges, and filters as required by commercial users.

STATEMENT OF PRACTICAL TREATMENT:
IF SWALLOWED:
- Call a poison control center or doctor immediately for treatment advice.
- Have the product container or label with you when calling a poison control center or doctor.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

IF IN EYES:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

OTHER: Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

ENVIRONMENTAL HAZARDS:
This material is toxic to fish. Do not apply directly to water by dispersal or in suspension. Do not store excessive quantities of this product in runoff or surface waters. Do not allow this product to reach waterways or streams. Do not discharge this product into any waterway. Do not discharge this product into surface water or streams. Do not discharge this product into or onto any waterway. Do not discharge this product into or onto any waterway.

ACTIVATOR

Micron OPTIMA
Activator Part B of a Two Part Antifouling Paint System
Optima – Technology uses special activators to provide revolutionary antifouling protection
Simple to use – Just mix with Micron Optima Base Part A
(EPA Reg No. 2693-193) and apply

ACTIVE INGREDIENT:
Zinc Phosphonate 5-oxide 46.04%
ACID INGREDIENTS 53.96%
Zinc Pyritosine 100.00%

ACTIVATOR PART B
NET CONTENTS: 1 PINT (0.47 L)
MICRON® OPTIMA ACTIVATOR
Activator Part B of a Two Part Antifouling System

DIRECTIONS FOR USE

*It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For use only by commercial or professional applicators at boat or ship construction, maintenance, or repair facilities or marinas. Not intended for application by residential (non-commercial) users. This is the activator for the MICRON OPTIMA ANTIFOULING PAINT. It must be mixed in a ratio of 1 part Activator to 7 parts Base. Complete directions for use and application are contained on the Micron Optima (EPA Reg. No. 2693-193) Base Part A label. Only use this product after first mixing with Micron Optima (EPA Reg. No. 2693-193) Base Part A. MIX ONLY WHAT CAN BE USED IN 2 HOURS.

The maximum time to launch is indefinite, as you can launch the boat anytime after the minimum time, ensuring maximum flexibility. MICRON OPTIMA must be fully dry before launching. It should not be applied to pad or block areas immediately prior to launching. Pot life can be extended slightly with the addition of paint conditioner 2616.

KEEP FROM FREEZING
