PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

CAUSES EYE IRRITATION. HARMFUL IF INGESTED THROUGH SKIN. AVOID CONTACT WITH SKIN, EYES OR CLOTHING. WEAR PROTECTIVE CLOTHING SUCH AS GLOVES, LONG-LEEVED COTTON SHIRT, LONG PANTS, AND BOOTS. MAY BE FATAL IF INHALED OR INGESTED. DO NOT BREATHE DUST, VAPOR OR SPRAY MIST. WHILE SPRAYING, BREATHE OR SURROUND MIST ONHAND SURFACES, WEAR A MASK OR A RESPIRATOR. JUMPED AIR: BY THE MONTANA SAFETY & HEALTH ADMINISTRATION AND THE NATIONAL INSTITUTE OF OCCUPATIONAL SAFETY AND HEALTH. REMOVE CONTAMINATED CLOTHING AND WASH PRIOR TO USE. WASH THOROUGHLY WITH SOAP AND WATER AFTER HANDLING.

FIRST AID

IF SWALLOWED:
- CALL A POISON CONTROL CENTER OR DOCTOR IMMEDIATELY FOR TREATMENT ADVICE.
- HAVE PERSON SIP A GLASS OF WATER IF ABLE TO SWALLOW.
- DO NOT INDUCE VOMITING UNLESS TOLD TO DO SO BY A POISON CONTROL CENTER OR DOCTOR.
- DO NOT GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON.

IF IN SKIN OR CLOTHING:
- TAKE OFF CONTAMINATED CLOTHING.
- RINSE SKIN IMMEDIATELY WITH PLenty Of WATER FOR 15-20 MINUTES.
- CALL A POISON CONTROL CENTER OR DOCTOR FOR TREATMENT ADVICE.

IF INHALED:
- MOVE PERSON TO FRESH AIR.
- IF PERSON IS NOT BREATHING, CALL 911 OR AN AMBULANCE, THEN GIVE ARTIFICIAL RESPIRATION, PREFERABLY BY MOUTH-TO-MOUTH IF POSSIBLE.
- CALL A POISON CONTROL CENTER OR DOCTOR FOR FURTHER TREATMENT ADVICE.

IF IN EYES:
- HOLD EYES OPEN AND RINSE SLOWLY AND GENTLY WITH WATER FOR 15-20 MINUTES.
- REMOVe CONTACT LENSES, IF PRESENT, AFTER THE FIRST 5 MINUTES, THEN CONTINUE RINSE EYES.
- CALL A POISON CONTROL CENTER OR DOCTOR FOR TREATMENT ADVICE.

OTHERS:
- IF YOU HAVE A PROBLEM OR BECOMES ILL, CALL YOUR DOCTOR OR CHEMICAL TREATMENT CENTER.

ENVIRONMENTAL HAZARD:
THIS PRODUCT IS TOXIC TO FISH. DO NOT APPLY DIRECTLY TO WATER BY CLEANSING OF EQUIPMENT OR DISPOSAL OF WASTES. DO NOT ALLOW DRIPS AND DREDGED MATERIALS TO ENTER WATER. DISPOSAL OF PAPER WASTE IS BY AN APPROVED DISPOSAL SERVICE. DISCHARGE EFFLUENT CONTAINING THIS PRODUCT TO GROUNDS, STREAMS, PONDS, RIVERS, OCEANS AND OTHER WATERS UNLESS IN ACCORDANCE WITH REQUIREMENTS OF A NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT AND THE PERTAINING AUTHORITY HAS BEEN NOTIFIED IN WRITING PRIOR TO DISCHARGE. DO NOT DISCHARGE EFFLUENT TO SAVES ANIMALS OR ANY OTHER WATERS WITHOUT NOTIFYING THE LOCAL WASTEWATER TREATMENT PLANT MANAGER. FOR FURTHER INFORMATION CALL YOUR STATE WATER QUALITY DEPARTMENT OR THE FEDERAL ENVIRONMENTAL PROTECTION AGENCY.

PHYSICAL OR CHEMICAL HAZARD:
FLAMmABLE. Keep away from heat and open flames.

STORAGE AND DISPOSAL:
Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

PESTICIDE DISPOSAL:
PESTICIDE WORKERS ARE RESPONSIBLE TO ASSURE THAT THE CONTENTS ARE CORRECTLY DISPOSED OF. PROPER DISPOSAL OF EXCESS PESTICIDE, SPRAY MIST OR SPRAY IS A VIOLATION OF FEDERAL LAW. IF THESE WASTES CANNOT BE DISPOSED OF BY USE ACCORDING TO LABEL INSTRUCTIONS, CONTACT YOUR STATE PESTICIDE OR ENVIRONMENTAL CONTROL AGENCY, OR THE FASTEPESTICIDE WORKER REPRESENTATIVE AT THE NEAREST EPAG OFFICE OR USE.

CONTAINER DISPOSAL:
NEVER REUSE CONTAINER. DO NOT USE OR REUSE IT UNDER ANY CONDITIONS. APPLY AS A POUND TO A NEST WALL. POUR THE REMAINING CONTENTS INTO APPLICATION EQUIPMENT OR A MIXTURE AND DRAIN FOR 10 SECONDS AFTER THE FLOW BEGINS TO STOP. DRAIN THE CONTAINER INTO THE LEAKED WATER. EXPLODE FOR 10 SECONDS. PLACE INSIDE APPLICATION EQUIPMENT OR A MIXTURE AND STORE IN SOME FOR LATER USE OR DISPOSAL. DRAIN FOR 10 SECONDS AFTER THE FLOW BEGINS TO STOP. REPEAT THIS PROCEDURE MORE THAN TWO TIMES.

V107U
RED

0.75 U.S. QUART (0.710 LITERS)

Manufactured by International Paint LLC
2270 Morris Ave., Union, NJ 07083 • 908-686-1300

Label Rev. 150414

ACTIVE INGREDIENTS:
COPPER POWDER 20.35%
INERT INGREDIENTS 79.65%
TOTAL 100.00%

EPA REGISTRATION NO. 45168-6
EPA ESTABLISHMENT NO. 2693-76-1
PRODUCT DESCRIPTION
This product is a performance increasing, reduced friction, low drag finish antifouling paint for powerboat hulls in fresh water or cold saltwater. This product will prevent buildup of marine fouling organisms such as barnacles, zebra mussels, terebros and algae. The friction reducing property of this product is a function of its unique pigmentation system. When applied, this product will immediately give a thin super smooth "slip" finish, that would traditionally take days of time consuming sanding. This product no longer contains 1,1,1 Trichloroethane, which means it will dry slower and will improve the flow to give you a smoother finish. When it's time to recoat this product no sanding is required. Just wash with fresh water, let dry and reapply this product. This product goes on 8 times thinner than traditional antifouling paint which virtually eliminates film buildup. This product can be used on fiberglass, wood and properly primed underwater metal (except aluminum), in fresh, and low fouling saltwater. The thin flexible film will not crack, making it an excellent choice of inflatable hulls as well. Do not use this product in difficult fouling areas.

TECHNICAL INFORMATION
Drying Time: 5-10 minutes
Coverage: Approximately 85 sq. ft./quart
Thinner: VC General Thinner V170
Application Tools: Short nap solvent resistant roller or electric airless spray
Color: (V107U) Red: At application - reddish copper bronze. Changes to bright burnt red after several weeks of immersion.
Number of Coats: Low Fouling Cold Saltwater – Three coats the first season and two coats each season to follow.
Freshwater – two coats the first season and one coat each season to follow.

SURFACE PREPARATION
BARE FIBERGLASS (POLYESTER OR VINYLESTER): It is very important that bare fiberglass be prepared properly to prevent delamination of antifouling paint. Scrub the surface thoroughly with soap and water using a stiff brush, or use INTERLUX ABRASIVE CLEANER WMA600. Flush well with fresh water. Wipe a small area with a clean rag that has been wetted with FIBERGLASS SOLVENT WASH 202 or VC GENERAL THINNER V170. While the surface is still wet, wipe with a clean rag. Continue this process until the entire surface has been cleaned. To be certain all wax and other contaminants have been removed, run water over the surface. If the water beads up or separates, wipe surface again with INTERLUX FIBERGLASS SOLVENT WASH 202 or VC GENERAL THINNER V170, when the water sheet off, all contamination has been removed. Sanding does not remove surface contamination. After the surface has been properly cleaned, matte sand with 320 grit sandpaper, or apply one coat of VC NO-SAND PRIMER V129. Then apply 2-3 coats of VC17m.

PREVIOUSLY PAINTED SURFACES
HARD ANTI FOULING PAINTS: Due to the porosity of hard antifouling paints, it will need to be sanded several times to reach an acceptable surface for application of VC17m. Begin sanding with 80 grit sandpaper and work through the sandpaper grades until a final sanding with 320 grit sandpaper is reached. Wipe the surface with VC GENERAL THINNER V170 to remove sanding residue and apply 2-3 coats of VC17m.

SOFT ANTI FOULING PAINTS: Soft antifouling paints should be removed prior to application of VC17m.

UNDERWATER METALS: Underwater metals must be primed to avoid contact with copper bottom paints. (not for aluminum).
Grind or sand blast to bright metal, clean thoroughly with VC GENERAL THINNER V170 and overcoat within one hour with the first coat of VC-TAR. Apply 3-5 additional coats taking care to follow the label directions as to overcoating time. Apply VC17m within 48 hours of the last coat of VC-TAR. If you cannot apply VC-TAR within one hour of blasting, apply one thin coat of INTERLUX VINYLUX PRIMEWASH 353/354 prior to application of VC-TAR.

BARE WOOD: Sand smooth with 80-100 grit sandpaper, and wipe with VC-GENERAL THINNER V170. Apply 3 coats of VC17m.
Mixing: Empty the contents of the copper bag (found under the blue lid) into the base. Mix thoroughly. Stir occasionally during the application.
Application: VC17m is applied with a short nap roller, 4-6" wide or an electric airless spray gun. For rolling, pour only small amounts of the paint into the steel rolling tray. Roll with a fairly dry roller. Roll quickly and on one direction only VC17m should be applied wet. Do not dry spray. Do not use conventional spray equipment as this may result in dry spray.

DISCLAIMER: The performance of any marine paint or coating depends on many factors outside the control of International Paint LLC. Including but not limited to, environmental conditions. Therefore, International Paint LLC cannot guarantee the performance of this product, and will not be liable for incidental or consequential damages caused. This product is not paint for a particular purpose and/or application. Any use of this product by anyone other than the original purchaser or user at his or her own risk. Any use of this product in any way shall be subject to all local, state, and federal laws and regulations. The user agrees to completely indemnify and hold the manufacturer harmless for any claims, costs, damages, and expenses, whether or not caused by the manufacturer.
COPPER POWDER V901

To be mixed with Liquid Component of the following products only:
VC 17m Antifouling Bottom Paint V107U Red

ACTIVE INGREDIENT:
Copper Powder 100.00%

INERT INGREDIENTS:
0.00%
TOTAL: 100.00%

EPA Registration No. 45168-6
EPA Establishment No. 45168-TX-1

KEEP OUT OF REACH OF CHILDREN
DANGER
See outside container for precautionary statements

Directions For Use
Mix Contents of this bag with paint immediately prior to use.
See outer container for additional Directions For Use.

Bag Disposal: Wrap empty bag in newspaper and discard in trash.
Net Contents: 145 grams
