The Amazing Doctor Zymes

Insecticide and Fungicide
- Kills and eliminates insects including larvae and eggs of aphids, fungus gnats, mites, root aphids, thrips and whiteflies and fungus, molds and mildew.

CONCENTRATE

Insecticide and Fungicide
- Kills and eliminates insects including larvae and eggs of aphids, fungus gnats, mites, root aphids, thrips and whiteflies and fungus, molds and mildew.

PRECAUTIONARY STATEMENTS
CAUTION: May cause eye and skin irritation. Avoid contact with eyes and skin.

FIRST AID
If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a physician or Poison Control Center.

If on Skin: Wash exposed area with soap and water. If irritation persists, call a physician at 1-800-222-1222 for emergency medical treatment information.

DIRECTIONS FOR USE
Read entire label before use. Use as directed. Apply Eliminator by various application methods to ornamentals, food and feed crops, turfgrasses, shrubs and vegetation by foliar spray, soil drench and soil incorporation.

For foliar sprays (at a distance of 8-12 inches), apply Eliminator to all surfaces of vegetation taking care to make complete coverage of foliage (in-between stem and bottom of stem). Directly spray treated plants whenever possible. To ensure good coverage, spray against the wind, but not at the point of runoff. Prior to any large scale application, test product on an inconspicuous area. Do not spray when temperatures exceed 55°F. Spray at the evening to avoid phototoxicity. Take care to avoid spraying beneficial insects. Do not spray directly on bees or at the times when bees are active.

KILLS: Including its larvae and egg aphids, fungus gnats, mites, root aphids, thrips and whiteflies and fungus, molds and mildew.

RECOMMENDED USES: Indoor and Outdoor Pest, Outdoor Soil Treatments

APPLICATION RATES: For best results, use warm (between 70-90°F) distilled or reverse osmosis water with a pH of 7.0 to 7.9. Do not exceed pH of 8.0 after agitation is made.

- Weak Solution: Add 1 oz of Eliminator to 31 oz of water (recommended for spraying vegetables).
- Medium Solution: Add 2 oz of Eliminator to 31 oz of water (recommended for use with foliar spray products).
- Strong Solution: Add 2 oz of Eliminator to 16 oz of water (recommended for use on brush after container has been placed in area).

STORAGE AND DISPOSAL
Keep away from children and pets. Store in original, tightly sealed container. A cool climate (between 30-70°F) is not required. Free of pathogens. Non-toxic to beneficial insects, nematodes, molds, and mildew. Do not mix or store with the container. Do not contaminate drainage ditches or storm sewers.

Non-Bacterial - Shelf Stable - Does not require Special Clothing or Handling - No Growth Stage Limitations - No Harvest Restrictions - Food Grade Ingredients - Gluten Free - Oil Free - Won't Clog Stomata - GMO Free - No Harmful Residue

Unleashing the Power!
PROCAUTIONARY STATEMENTS

CAUTION: May cause eye and skin irritation. Avoid contact with eyes and skin.

FIRST AID
If sprayed in eyes open and rinse with plenty of water for at least 15 minutes. Between contact lens, if present, after the first 3 minutes, then continue rinsing eyes. Call a physician for consultation.
If on skin: Wash exposed area with soap and water. For irritation, call a physician or 1-800-222-1222 for emergency medical treatment information.

DIRECTIONS FOR USE
Read Entire Label Prior to Use. As Directed. Apply Emulsifier byknown application methods to ornamental, food and food crops, turfgrass, shrubs and vegetation by Sikra spray, infield and red incorporation.

For Sikra spray (from a distance of 6±2 inches), apply Emulsifier to all surfaces of vegetation taking care to make complete coverage of foliage. Use application rates (1 oz. per 5 gal. water) on large scale application. For small scale application, products are inconspicuous and can be sprayed in the evening to avoid population. Take care in avoiding beneficial insects. Do not spray directly on live bees or at times when bees are active.

KILLS: Including those listed and epigaic insects, fungi, grubs, mites, nematodes, fleas, ticks and related and fungi, mildew and botrytis.

RECOMMENDED USES: Interior and Exterior Pest, Interior and Exterior Pest Treatments

APPLICATION RATES: see chart below (60°F-70°F) diluted or concentrate

Concentrate Water mix 1 oz. to 5 gal. Water mix 1 oz. to 20 gal. W. mix 1 oz. to 50 gal of water. Do not mix any other foliar spray products.

- Weak Solution: Add 1 oz. of Emulsifier 10 oz. of water (recommended for powdery mildew).

- Medium Solution: Add 1 oz. of Emulsifier 1 oz. of water (recommended for soft infection).

- Strong Solutions: Add 1 oz. of Emulsifier to 1 oz. of water or concentrate additional dose for application. Use application rate at the discretion of the customer.

Application Device: Product can be applied with equipment such as trigger sprayers, garden hose sprayers, sprayer equipment, fan sprayer, sprayer gun, emergent equipment, interior sprayer or garden sprayer application systems.

Insecticide and Fungicide

- Kills and eliminates insects (including larvae and eggs) of aphids, fungus gnat, mites, root aphids, thrips and whiteflies and fungus, mildew and mold.

- Non-Bacterial
- Shelf Stable
- Does not require Special Clothing or handling
- No Growth Stage Limitations
- No Harvest Restrictions

STORAGE AND DISPOSAL

Keep away from children and pets. Store in cool, dry place, container in cool (ideally between 68°F-72°F) and as near to source as possible (at least 12 months). Store in cool container, do not store in hull or cool container. Recycle empty container, or discard in trash.
