DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL

PLAIN DISINFECTANT CLEANER II

DIRECTIONS FOR SANITIZING FOOD PROCESSING EQUIPMENT, UTENSILS, AND FOOD CONTACT ARTICLES REGULATED BY 40CFR sec 180.940.

1. Scrub, brush or wash articles before applying (or autoclaving) to remove gross food particles and soil.
2. Allow sanitized surfaces to drain and air dry. Do not rinse.

PLAIN DISINFECTANT CLEANER II

• Fragrance-Free • Dye-Free

ACTIVE INGREDIENTS
n-Alkyl (60% C 14, 30% C16, 5% C12, 5% C18) Quaternary Ammonium Compounds

INACTIVE INGREDIENTS

DIRECTIONS FOR USE

KEEP OUT OF REACH OF CHILDREN

DANGER

KEEP OUT OF REACH OF CHILDREN.

DANGERS: CAUSES Caution: corrosive effects on eyes and skin. Do not get in eyes, on skin or clothing.

ENVIRONMENTAL HAZARDS

This product has low acute aquatic toxicity in aquatic mammals and fish. It may be corrosive to metal and concrete. It is not expected to be adsorbed or accumulated in the environment and is not expected to be persistent or Bioaccumulative.

PRECAUTIOANARY STATEMENTS

HAZARDS: DERMAL IRRITATION: Causes skin irritation and burning. Avoid contact. Determine manufacturing and use directions for application of this material. If swallowed, SEEK IMMEDIATE MEDICAL ATTENTION.

Shake well prior to use. For a 1:20 dilution, add 2 ounces of this product per gallon of water (or equivalent dilution) by rinsing, spraying or swabbing. Allow the items to remain thoroughly wetted for at least 60 seconds. If residue is present, rinse, wash, or wipe with a cloth or sponge. Do not rinse. Immediately after use, all surfaces in the area must be thoroughly washed, rinsed, and allowed to drain and air dry. Do not rinse if item is used as a food contact article.

Bactericidal activity against the following organisms: At a concentration of 200 - 400 ppm active quaternary (2812 ppm (mg/L) active quat), this product is effective against the following viruses on hard non-porous surfaces: Pseudomonas aeruginosa PRD 10, Escherichia coli, Klebsiella pneumoniae, Salmonella (schottmuelleri) enterica, Salmonella (choleraesuis), Staphylococcus aureus (VISA), Streptococcus pyogenes (Clinical–Flesh Eating Strain, BIRD M3), and Listeria monocytogenes, and meets all criteria for the following standards:

(5000 ppm chlorine) for at least 60 seconds. To disinfect toilet bowls:

- At the 2 ounce per gallon dilution rate (2812 ppm (mg/L) active quat), this product is effective against the following organisms: At a concentration of 200 - 400 ppm active quaternary (2812 ppm (mg/L) active quat), this product is effective against the following organisms:

1. Scrub, brush or wash articles before applying (or autoclaving) to remove gross food particles and soil. Apply a 1:100 dilution of this product to the area (or equivalent dilution) by rinsing, spraying or swabbing. Allow the items to remain thoroughly wetted for at least 60 seconds. If residue is present, rinse, wash, or wipe with a cloth or sponge. Do not rinse. Immediately after use, all surfaces in the area must be thoroughly washed, rinsed, and allowed to drain and air dry. Do not rinse if item is used as a food contact article.

2. Sanitize equipment and livestock holding areas, including feed bunks, bunk feeders, and other equipment.
