**HOT LINE NUMBER**
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-424-1173 for emergency medical treatment information.

**DIRECTIONS FOR USE**
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not allow children to apply product. To prevent harm to you and your dog, read entire label before each use. Follow all directions and precautionary statements carefully. Do not use on cats, rabbits, or animals other than dogs. Do not allow your dog to ingest this product. Do not use on puppies under 8 weeks of age or less than 6 lbs. Use one entire contents of tube on each dog. Do not apply topical treatment to cats, dogs, or other animals. Use one entire tube on each dog. Do not use multiple tubes on one dog. Weekly for dogs to be sure you are applying the right dose formulated for the weight of your dog. Separate the treated dog from all other dogs and cats for 24 hours after treatment has been applied.

**How to open:** Remove product tube from the package. Separate one tube from the other. Hold the tube with notched end facing up and away from the face and body. Use scissors to cut off the narrow end and at the notches along the lines.

**How to apply:** Insert tube over dog and use one part to part dog's hair. Squeeze tube firmly to apply all of the solution to the dog's skin, as directed below. Do not apply more than once every 4 weeks.

**Only For Dogs Weighing 23-44 lbs.**
Apply one tube (0.34 ml/0.045 fl oz) as a spot on the dog's back between the shoulder blades.

**Side Effects:** Monitor your dog after application. Dogs may experience some temporary irritation at the site of application such as redness, scratching or other signs of discomfort. If signs of sensitivity occur, bathe your dog with a mild soap and rinse with large amounts of water. If these or other side effects occur, consult your veterinarian or call 1-800-424-1173. If your dog has an unusual reaction to the initial application, consult a veterinarian before repeating application. The most common signs of incidental ingestion are excessive salivation and foaming at the mouth. If these symptoms occur, immediately feed your dog and continue to monitor your dog for the next 24 hours.

**FREQUENCY OF APPLICATION**
Use ZoGuard Plus for Dogs monthly for complete control of flea, tick, and chewing lice infestations. Studies show that ZoGuard® Plus for Dogs kills adult fleas for up to three months. Apply monthly if your dog is at high risk for flea reinfestations. Apply monthly to control ticks and chewing lice. ZoGuard® Plus for Dogs remains effective even after bathing, water immersion, or exposure to sunlight. Allow treated area to dry thoroughly. Do not apply for 30 days.
