Peel Away Back Label

Cleaning: Spray product straight onto spots, scrub and wipe clean with a dry paper towel or cloth.

Cleaning Instructions: For cleaning floors, add one (1) cup product per gallon of water in bucket and clean with sponge, mop, or squeegee. For spot cleaning, spray and wipe clean with damp sponge, mop, or cloth.

DEODORIZER:
- To Deodorize: Product works by oxidation, not by masking of odors. Eliminates odors caused by food smoke, tobacco smoke, body odors, stale-odors, etc. Simply spray or wipe on full strength and let air dry to provide long-lasting residual deodorizing action. Product must come into contact with the cause of the odor to be effective.

MILDROVIST:
To Prevent Mold or Mildew on Floors: Remove as much surface dirt, mold, or mildew as possible by cleaning. Then spray on product from a distance of 12 inches until visibly wet and let air dry.

SANITIZATION:
To Sanitize Non-food Contact Hard Non-porous Surfaces: Staphylococcus aureus ATCC 29213 and Enterobacter aerogenes (ATCC 13040) Via 1 part product with 9 parts water. Apply product as a one-step cleaner sanitizer (5% organic soil load) by wetting thoroughly and let stand 6 min., wipe and allow to air-dry. No rinsing required.

DISINFECT:
To Disinfect Hard Non-porous Surfaces: For disinfecting pre-cleaned hard non-porous surfaces such as glass, plastic, painted wood, laminate, chrome, stainless steel, polyurethane-coated hardwood floors, glazed ceramic tile, sealed concrete & linoleum floors. Apply product full strength to pre-cleaned hard non-porous surfaces, wetting thoroughly with sponge, sponge mop, or by immersion in solution. Allow surfaces to remain wet for 8 minutes before disinfection. For pre-soak, replace solution daily, or more frequently if it becomes significantly soiled or diluted.

HARD SURFACE SANITIZATION NO RINSE REQUIRED: 30 SEC CONTACT TIME
Escherichia coli (ATCC 11229), Staphylococcus aureus (ATCC 6538)
