PRECAUTIONARY STATEMENTS

ENVIRONMENTAL HAZARDS
This pesticide is toxic to aquatic organisms. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by disposing of equipment wash waters or rinsate.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS AND WITH APPLICABLE STATE AND FEDERAL REGULATIONS.

RESTRICTIONS
Rizolex Flowable Fungicide must be used only in accordance with use instructions on this label utilizing mechanical, slurry or mist type seed treating equipment. Calibrate the equipment to accurately and uniformly apply the product to seed. This product is for both commercial and on-farm application.

Do not apply this product in hopper-box or planter-box at planting time. Always mix product thoroughly before use. Do not plant treated seed by broadcast application.
As stated by regulations specified in 40 CFR 153.155, all seed treated with Rizolex Flowable Fungicide must be colored with an EPA approved dye or colorant to visually distinguish seed which has been treated with a pesticide from untreated seed. It is mandatory that such dye or colorant be added into the slurry mixture containing Rizolex Flowable Fungicide, prior to application. This regulation is necessary to prevent treated seed from accidental use as a food for man or feed for animals. Do not use treated seed for food or animal feed.

*Rizolex Flowable Fungicide may only be used on true seeds and may not be used on propagative plant parts such as garlic cloves.
