FINAL LAUNDRY SANITIZER is designed for commercial and institutional laundry use by addition to the final rinse step. Used as directed, FINAL LAUNDRY SANITIZER provides effective residual bacteriostatic and self-sanitizing properties for laundered items such as diapers, hospital and institutional linens, and athletic apparel.

Efficacy Claims: FINAL LAUNDRY SANITIZER is an effective laundry sanitizer when used as directed in water at up to 200 ppm hardness against:

- Corynebacterium ammoniagenes
- Escherichia coli 0157:H7 [E. coli O157:H7]
- Klebsiella pneumoniae
- Listeria monocytogenes
- Salmonella enterica [Salmonella]
- Staphylococcus aureus [Staph]
- Staphylococcus aureus – Community Associated Methicillin-Resistant [CA-MRSA]
- Staphylococcus aureus – Hospital Associated Methicillin resistant [HA-MRSA]

FINAL LAUNDRY SANITIZER provides residual self-sanitizing efficacy in the laundry rinse cycle when used as directed in water at up to 200 ppm hardness against:

- Klebsiella pneumoniae
- Staphylococcus aureus

For residual bacteriostatic or self-sanitizing activity, conditions of high relative humidity or wet contamination are required. FINAL LAUNDRY SANITIZER provides residual bacteriostatic efficacy in the laundry rinse cycle when used as directed against gram negative and/or gram positive odor causing bacteria.

Directions for Use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Laundry Sanitizer:

Add 3 oz. of FINAL LAUNDRY SANITIZER in high efficiency applications per a maximum of 100 pounds of fabric to sanitize laundered fabrics in the rinse cycle. A minimum cycle time of 5 minutes is required.

Residual Bacteriostatic Initial Treatment: Use 0.56 oz. (3.5 teaspoons) of FINAL LAUNDRY SANITIZER for a minimum 24 hours holding in commercial or industrial applications or per a maximum of 100 pounds of fabric. Dilute the appropriate amount of FINAL LAUNDRY SANITIZER in one to two gallons of water and then add this solution to the wash wheel at the beginning of the final rinse cycle. A minimum rinse cycle time of 10 minutes is required. Repeat treatment: Follow initial treatment directions and re-treat fabric after each washing or if odor persists.

Residual Self-Sanitizing:

Use 0.6 oz. of FINAL LAUNDRY SANITIZER in commercial or industrial applications per a maximum of 100 pounds of fabric. Dilute the appropriate amount of FINAL LAUNDRY SANITIZER in one to two gallons of water and then add this solution to the wash wheel at the beginning of the final rinse cycle. A minimum rinse cycle time of 8 minutes is required.

EPA Reg. No. 6836-63-3615
EPA Est. No. 10508-OH-001, 10508-TN-001, 10508-TX-001, 10508-PA-001, 34490-CA-001

Active Ingredients:

- Octyl decyl dimethyl ammonium chloride 25.0%
- Dioctyl dimethyl ammonium chloride 10.0%
- Didecyl dimethyl ammonium chloride 15.0%
- Other Ingredients 50.0%

Total: 100.0%

Keep Out of Reach of Children

DANGER PELIGRO

See right panel for Precautionary Statements.

First Aid:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Remove contact lenses, if present. If the eyes sting, rinse eyes.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration. Keep mouth-to-mouth contact if possible. Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

Precautionary Statements:

Hazard to Humans and Domestic Animals

DANGER: Corrosive: Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear protective eyewear (goggles, face shield, or safety glasses), protective clothing and protective gloves (rubber or chemical resistant). May be fatal if swallowed. Do not breathe vapor. Wear a MSHA/NIOSH-approved dust/mist filtering respirator number TC-21C or a NIOSH approved respirator with any N, R, P, or HE filter. Harmful if absorbed through the skin. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco.

Environmental Hazards

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewers without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

Storage and Disposal:

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Open dumping is prohibited. Store in original container in areas inaccessible to children.

Pesticide Disposal: Pesticide wastes are acute hazards. Improper disposal of excess pesticide, spray mixture or rinse is a violation of Federal Law. These wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Fill container ¼ full with water and reclose the container. Agitate vigorously, and dispose of rinsewater consistent with pesticide disposal instructions. Repeat two more times. Then offer for recycling if available or puncture and dispose in sanitary landfill by or other procedures approved by state and local authorities. Follow pesticide disposal instructions for rinsewater. If not triple rinsed, these containers are acute hazardous wastes and must be disposed in accordance with local, state, and federal regulations.
