PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER. Corrosive. Causes irreversible eye damage and skin irritation. Harmful if swallowed or absorbed through skin. Do not get into eyes, on skin or on clothing. Wear protective eyewear, gloves, face shield, protective clothing, and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using sharp objects. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish.

PHYSICAL OR CHEMICAL HAZARDS: Do not mix with soap, anionic detergents or oxidizers.

DIRECTIONS FOR USE
IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING. Please read entire label and use strictly in accordance with precautionary statements and directions.

SWIMMING POOLS: This product requires no special equipment for treating swimming pool water. The correct use dilution may be added directly to the pool in any single application to the water circulation equipment. This product works the best when added in the evening to pool water.

INSTRUCTIONS FOR USE WITH HALOGEN BASED POOL SANITIZERS: This product is formulated to complement most swimming pool sanitizers. When using other products as outlined in Directions for Use, always follow Directions for Use of those products. This product is effective against the growth of algae. This product is efficient and non-surfacing when used as directed. This product will not evaporate and its algae lighting ability actually increase as pool water temperature increases.

Ensure all pool equipment is working properly. Backwash the filter system following manufacturer's directions. Adjust pH between 7.2-7.8. Adjust chlorine residuals to 1-1.5 ppm. In a chlorine treated pool, add stabilizer to maintain a level of 40-50 ppm to reduce the degrading effects of sunlight upon the chlorine residual. Check for metals and if present add chlorine and scale inhibitor to prevent staining of pool surface due to metals. Check chlorine residual and adjust to 1.5 ppm.

Add this product directly into pool by pouring around entire outside perimeter of pool. Do not apply when there are no swimmers in the immediate vicinity. Allow the filter to run for at least six (6) hours after adding algaece. During this period, swimming pool should not be allowed into the water.

INITIAL APPLICATION FOR SWIMMING POOLS
1. Backwash the filter thoroughly.
2. Vacuum algae debris (if visible) and thoroughly brush pool.
3. Add 24 ounces per 2,000 gallons of water or raise chlorine to 2 ppm.
4. Vacuum pool after 24 hours to remove dead algae.
5. If algae is still visible repeat dose (steps 3 & 4) as necessary until pool is free of visible algae.
6. Once algae are under control, clean filter and return to normal operation.

MAINTENANCE APPLICATION: Add one quart of this product in 5,000 gallons of water every 2-3 days or as needed to maintain 0.5 ppm active.

BOOSTER APPLICATION: Add one quart of this product in 5,000 gallons of water after a heavy or prolonged rainfall or when there is a heavy buildup, such as dust or debris. The above directions must be followed even when the pool is not in use.

If algae growth is undesirable, apply initial dose.

VACATION TREATMENT: When you are going to be away for one week or more, and 24 ounces of this product per 10,000 gallons of water for every week unattended. Pour product around the edges of the shallow end of the pool, if shock is also being applied in the deep end of the pool.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

STORAGE: Store in original containers and store in locked storage area. Keep from freezing. All products should be kept out of reach of children and stored away from food.

DISPOSAL: If empty: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available.

If partially filled: Call your local solid waste agency for disposal instructions.

Never place unused product down any indoor or outdoor drain.

This product is compatible with most chemicals normally used in swimming pool maintenance; however, in its concentrated form, this chemical should not come in contact with high concentrations of chlorine or any other oxidizer.

DO NOT MIX THIS PRODUCT AND CHLORINE OR ANY OTHER OXIDIZER TOGETHER BEFORE ADDING TO THE POOL. These chemicals should be handled separately.

This product was formulated to complement most swimming pool sanitizers. This product is not a stand-alone product. It must be used with halogen based pool sanitizers.
