- Floral & Sex Lures Attracts Male & Female Beetles
- Reusable Trap

**FLORAL LURE**
Net Weight 8.00g

This package contains:
One dual lure containing a food-floral attractant and a sex lure attractant in a sealed tray with removable top.
Acting together, these lures attract both male and female Japanese Beetles in quantities unsurpassed by other lures.

**ACTIVE INGREDIENTS**
- Eugenol: 22.25%
- Geraniol: 9.50%
- 2-Phenyl Ethyl Propionate: 9.50%

**INERT INGREDIENTS**: 58.75%

Total 100.00%

**SEX LURE (PHEROMONE)**
Net Weight 750mg

**ACTIVE INGREDIENT**
1(R,Z)-5-(1-Decenyl) dihydro-2(3H) furanone*: 0.133%

**INERT INGREDIENTS**: 99.867%

*1 mg per dispenser...Total 100.00%
DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For outdoor residential use.

TRAP ASSEMBLY:
1. Remove trap top and bottom from box.
2. Attach bottom to top by screwing bottom into the base of the top.

INSTALLING DUAL LURE SYSTEM:
1. Remove Dual Lure from bottom of collection cage.
Peel off covering of the dual lure package as marked on package.
2. Position Dual Lure so that the open side faces inward toward the trap. Do not remove the contents.
3. Insert one edge into one vane slot, then tip upward to insert into opposite vane slot.
4. Your trapping system is now ready to use.

PLACEMENT:
The hanger loop on the vane is used to suspend the trap.
To be most effective, the trap should be located about 10 feet downwind of foliage to intercept beetles heading toward it. Do not place the trap near or in the foliage as it will attract more beetles into the foliage.
(Experience has shown that a height of about 3 1/2 to 4 ft. intercepts large numbers of beetles.) Traps work better in bright, open areas rather than shade.

TRAP MAINTENANCE:
Inspect trap periodically. One dual lure bait is effective for a complete season in most instances. Empty the cage when it is about half full of beetles. The air holes in the container will reduce the odor of dead and dying beetles. If the odor grows too strong, the odor could lessen the effectiveness of the lure. To kill beetles, immerse cage in water. Dead beetles may then be placed in garbage or buried.

<table>

<td>1/8 to 1/4 acre</td>
</tr>
<tr>
<td>3</td>
<td>1/4 to 1/2 acre</td>
</tr>
<tr>
<td>4</td>
<td>1/2 acre</td>
</tr>
</tbody>
</table>

Over 1/2 acre: 1 trap every 150-200 ft. along perimeter

- Kill the trapped beetles by immersing the cage in hot water.

STORAGE AND DISPOSAL
STORAGE: Do not contaminate water, food or feed by storage or disposal. Store in a cool, dry place. Do not open until ready to use.
DISPOSAL: At end of infestation season (or 3 months, whichever comes first), place in trash or offer for recycling. Do not reuse lure container.
