NOTE TO PHYSICIAN: Probable mucosal damage may contaminate the use of gastric lavage. Measures against shock, respiratory depression and convulsions may be necessary.

INDUSTRIAL COOLING OR PROCESS WATER SYSTEMS
Not registered for this use in the State of California.

For the control of microbial biofilms, bacteria, algae, and fungi, in industrial and commercial cooling or process water systems. KATHON 7TL Antimicrobial tablets are dosed to provide from 0.5 to 13 ppm active ingredient, depending on the severity of contamination. Badly fouled systems should be cleaned before treatment is begun. KATHON 7TL Antimicrobial tablets may be dosed once to twice per week, as needed.

OIL FIELD INJECTION WATERS
Not registered for this use in the State of California.

For the control of microbial biofilm-forming and sulfate-reducing bacteria in oil and gas field waters, including enhanced recovery injection fluids, drilling, fracking, and completion fluids. KATHON 7TL Antimicrobial tablets are dosed to provide from 1.0 to 5.0 ppm active ingredient, depending on the severity of contamination. Badly fouled systems should be cleaned before treatment is begun. KATHON 7TL Antimicrobial tablets may be dosed once to twice per week, as needed.
