READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Intended for indoor home use only; do not use on pets.

- People and pets should not be allowed to treated areas until spray has dried.

INDOORS
- To kill fleas, thoroughly vacuum area to be treated. Apply spray to create a fine spray in treated areas and baseboards of hard-surfaced areas. Liberally apply a fine mist or spray to carpets, rugs, draperies, and surfaces of upholstered furniture using by a wet, sweeping motion. Also spray floors underneath furniture, tables, chairs, and beds. Do not saturate surfaces. Treat or thoroughly wash pet bedding, a primary hiding place for fleas. Repeat as necessary. Do not spray humans or pets with this product. For long-term flea control, use 1/4 tsp per 1 sq ft.
- To kill other crawling insects, such as ants, ticks, spiders, silverfish, and crickets, spray directly on pets.
- Excess fine and airborne dust.
- **Caution**: Black widow and brown recluse spiders
- To kill bed bugs, thoroughly spray along baseboards and edges of carpeting, under carpeting, rugs, and furniture. Use in closets and on tray and wherever other insects are seen or suspected.
- To kill dust mites, thoroughly vacuum entire room, concentrating on areas where dust mites congregate such as headboards, wall, floors, carpeting, and baseboards. Apply as a spot treatment to these areas.
- **Note**: Do not recommend use of fabric or wood for staining before use.
- Check carpet manufacturer’s warranty and care and maintenance instructions before using product on your specific brand of carpeting.

STORAGE AND DISPOSAL

Store in cool, dry areas away from heat or open flame. Do Not Return to the store. If empty, do not refill the container. Place in trash or offer for recycling. If available. If partly filled, call your local solid waste agency for disposal instructions.

FOR BEST RESULTS, USE THIS PRODUCT AS PART OF A COMPREHENSIVE FLEA & TICK TREATMENT PLAN

An effective flea & tick control program includes simultaneous, coordinated treatment of the HOME, YARD & PET. Treatment & prevention go hand in hand, so it's key to treat all three areas. This integrated pest management approach includes inspection, cleaning & targeting eggs, larvae, & adults with the appropriate insecticides. Follow-up treatments are almost always necessary as flea & tick problems will not be solved with just one treatment.
