spa time.
dual-purpose sanitizer & shock
Granular Chlorinating Concentrate
Kills Bacteria. Destroys Contaminants.
Mantener fuera del alcance de los niños. Peligro: Vea el reverso del panel para más advertencias sobre los riesgos.

Active Ingredient: Sodium dichloro-s-triazinium dichloroisohypurate 99.0%
Available chlorine: 55%

Keep out of reach of children.

DANGER: See back panel for additional precautionary statements.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, and continue rinsing eyes. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If SWALLOWED: Call a poison control center or doctor for treatment advice.

If INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance; then give artificial respirations, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

If Tainted with poison control center or doctor when calling a poison control center or doctor, or going for treatment. IN CASE OF MEDICAL EMERGENCY, CALL 1-877-800-5553.

SPA SANITIZING
Si usted no entiende la etiqueta, busque a alguien para que le explique a usted en detalle.

WHY TO USE THIS PRODUCT: This product is a quick-dissolving stabilized granular spa sanitizer, which when applied according to label directions, will release sufficient chlorine to retard the growth of harmful algae and control bacteria.

IMPORTANT NOTES: When using other products, as outlined in directions for this product, always follow label directions for those products. 2. This product may cause damage to spa or hot tub finish or materials such as colored plaster, vinyl, wood or fiberglass surfaces. Avoid spillage granules on spa surface. 3. This product may promote metal stains on spa or hot tub surfaces. Always check water for metal content and if present, remove metals with a stain and scale inhibitor prior to the addition of this product. 4. Sunlight, rainfall, temperature, number of swimmers and frequency of spa and hot tub use affect the rate of chlorine loss. Adjust cleaning and chemical maintenance accordingly.

BEFORE YOU BEGIN: 1. Ensure all spa equipment is working properly. Clean or backwash filters following manufacturer's directions. 2. Check water pH, alkalinity and calcium hardness with a test kit. Adjust pH to 7.2-7.6 by adding pH Decreaser to lower pH. Or by adding pH Add to raise pH. Adjust alkalinity to 80-125 ppm for plaster spas, 125-150 for vinyl or fiberglass spas by adding Alkalinity Plus. Adjust calcium hardness to 150-200 ppm for plaster spas, 175-225 for vinyl or fiberglass spas by adding Calcium Hardness Increaser.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

NOW USE THIS PRODUCT:
FOR ROUTINE MAINTENANCE DOSES:
1. With pump on, add 1/2 teaspoon of this product per 100 gallons of water (or 5 teaspoons per 1,000 gallons) as an initial treatment. 2. Repeat at 15 to 20 day intervals until a residual of 3-5 ppm of available chlorine is established as determined by test kit. 3. A test kit must be used regularly to determine the frequency of additional doses of this product needed to maintain 3-5 ppm of available chlorine in the water.

SUPERCHLORINATION: Superchlorinate weekly as part of your routine maintenance program, or more frequently following heavy usage. Make sure recirculating pump is operating. Use one teaspoon of this product per 100 gallons of water (or 1/4 cup per 1,000 gallons) by broadcasting across water surface. Allow circulating pump to operate for 15-20 minutes. Do not enter spa until chlorine level is between 3-5 ppm.

Re-entry into treated spas is prohibited above levels of 5 ppm chlorine due to risk of body injury.

STORAGE AND DISPOSAL: Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate container if possible and flood area with large amounts of water to dissolve all material before discarding this container. Do not contaminate food or feed by storage or disposal.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Offer for recycling if available. Triple rinse container before disposal.

PRECAUTIONARY STATEMENTS:
Hazard: HUMANS AND DOMESTIC ANIMALS: DANGER: Corrosive. Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust or vapors. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

PHYSICAL OR CHEMICAL HAZARDS: STRONG CHLORINATING AGENT. Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. Use clean dry utensils. Do not add this product to any dispensing device containing remains of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reuse container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

NOTE: User assumes all responsibility for use not in accordance with directions.
